

# RE-SHAPING OUR DRUGS AND ALCOHOL SERVICES IN MIDLOTHIAN AND EAST LOTHIAN

We need your help to look over the horizon to see how we can improve drugs and alcohol services in your community. MELDAP have planned a series of consultation events and invite you to come along and have your say!

We need people from all walks of life to take part, whether you have engaged with services now or have done in the past, are part of the recovery community, are a family member, partner or friend of someone affected by drugs or alcohol. All your views are welcome.

The events will be held 1.30-4.30pm, they will be a chance to have conversations at small tables, grab a hot drink and biscuit and most importantly of all... share your views.

MELDAP is the Midlothian and East Lothian Drugs and Alcohol Partnership responsible for funding services, making sure they work correctly and respond to the needs of people who have drugs and/or alcohol difficulties.
