# Foreword to our plan

*The East Lothian Children and Young People's Services Plan 2016 to 2019* is our partnership commitment to every child and young person in East Lothian. We want our children and young people to be safe, healthy, achieving, nurtured, active, respected and responsible and included.

East Lothian's children and young people are the future for our county. Without them achieving their fullest potential in life, our county cannot thrive and grow. From the best possible start in life, we want East Lothian's children and young people to enjoy being young, with the right supports in place to make sure all children and young people are successful learners, confident individuals, effective contributors and responsible citizens in their community. We want our children and young people to live safe, healthier, more active and independent lives. Together, we want to get it right for every child and young person.

Most children and young people grow and achieve in East Lothian through access to

mainstream 'universal' services. There are some who need additional supports. To meet the range of needs of all children and young people, early intervention and prevention are at the centre of our planning and delivery of services.

This plan also provides a framework for all staff, carers and volunteers working with children and young people in East Lothian. It helps them identify and understand the needs of East Lothian's young population and promotes the participation of children, young people, families and carers in helping shape and improve the services we offer.

Working in partnership, our core principle is that we work to do things 'with' rather than 'to' our children and young people in our communities. This plan has been developed in partnership with our children and young people. It sets out the shared local priorities for achieving the vision and priorities for all children and young people. It makes clear what services and partners need to do together to achieve them.

The East Lothian Partnership is fully committed to achieving the promises made to East Lothian's children and young people in this plan. We thank all partners for their contribution to this plan and for their ongoing commitment to working together to achieve the best possible outcomes for our children and young people living in East Lothian.

**Sharon Saunders** / Chair of East Lothian Children's Strategic Partnership

*October 2015*

# Introduction

Welcome to *East Lothian's Children's and Young Peoples' Services Plan 2016-2019*. It has been written by the East Lothian Partnership to set out its commitment to give every one of our children the best possible start in life and to ensure that all our children and young people are safe, healthy, achieving, nurtured, active, respected and responsible and included.

## What is the East Lothian Partnership?

East Lothian Partnership is a grouping of four high-level partnerships: the governing body, the Resilient People Partnership, the Sustainable Economy Partnership and the Safe and Vibrant Communities Partnership and also six Area Partnerships. Each partnership is made up of organisations who work together alongside residents in East Lothian to oversee how best to work together to deliver services to all the people of East Lothian. The Partnership has 22 member organisations including East Lothian Council, NHS Lothian, Police Scotland, Scottish Fire and Rescue Service, Queen Margaret

University, Job Centre Plus Edinburgh College and many other organisations including those in the voluntary sector such as STRIVE.

East Lothian Partnership is responsible for *The East Lothian Plan 2013 to 2023*, otherwise known as our *Single Outcome Agreement*. *The East Lothian Plan's* top priority is to reduce inequalities within and between our communities. It promotes three strategic objectives:

- sustainable economy;
- resilient people;
- safe and vibrant communities;

It also sets out 10 high level outcomes that provide a clear vision for East Lothian and everyone who lives here. All these affect the lives of children and young people living in East Lothian.

East Lothian Partnership's work relating to the children and young people of East Lothian is carried out by the Resilient People Partnership and it's supporting Children's Strategic Partnership, who have immediate oversight of and responsibility for this

*Children's and Young People's Services Plan* and in turn are overseen by East Lothian Partnership.

You can find out more about East Lothian Partnership and the Children's Strategic Partnership through the information in the sections of this plan called '**More about the East Lothian Partnership**' (Sections 9.1) and '**More about the Children's Strategic Partnership**' (Section 9.2).

## What is purpose of this plan?

This plan builds on the high quality partnership working currently taking place across East Lothian and outlines how services including East Lothian Council, NHS Lothian, Police Scotland and those in the voluntary sector will work in partnership over the next three years to improve outcomes for our children and young people.

It provides a framework for all staff, carers and volunteers who work with children and young people to identify and understand

# Introduction

their individual needs and to consider what support is required. It also outlines our commitment to working together with children, young people and their families to finding solutions to the challenges we face.

This plan will drive the agenda for the Children's Strategic Partnership, a group which is responsible for overseeing the joined-up approach to delivering the best outcomes for children, young people and families in East Lothian.

## Who has helped to contribute to this plan?

*The Children and Young People's Services Plan 2016-2019* has been informed by feedback from children and young people and their families, inspections and reviews and our own self-evaluation. The views of children, young people and families are gathered in a range of different ways including our Care Experienced Young People's Champion's Board, school student surveys, family feedback and community consultation have also contributed.

You can find out more about how children, young people and families are involved in

our work in the section of this plan called **'More about involvement by children and young people'** (Section 9.3).

## Where does this plan fit in with other plans?

East Lothian Partnership's overall aim is to reduce inequalities both within and between our communities. This is set out in our *East Lothian Plan*, which is an agreement with the Scottish Government called the *Single Outcome Agreement*, often referred to as the 'SOA'.

*The East Lothian Plan* has ten high level outcomes we hope to achieve. Fuller details about the plan and these ten outcomes are contained in the section of this plan called **'More about the East Lothian Plan (Single Outcome Agreement)'** (Section 9.4).

All of these outcomes impact on the lives of East Lothian's children and young people. *The Children and Young People's Services Plan*

links those ten outcomes to the wellbeing of all our children and young people and gives more detail as to how we hope to achieve those outcomes.

Embedding the United Nations *Convention on the Rights of the Child* and the Scottish legislative framework of the *Children and Young People Act 2014*, we will work together to 'Get it Right for Every Child' (GIRFEC) and will progress our work to assess the wellbeing outcome improvements achieved for all children and young people in East Lothian.

## Why must we work together to achieve this Plan?

*The Children and Young People's Services Plan* will be implemented during a time of great change and challenge in the delivery of public sector services across Scotland. We have been already changing our culture, processes and practice over recent years: see **'More about Getting It Right for Children and Young People in East Lothian'** (Section 9.5). Over the next three years we will implement:

# Introduction

the *Children and Young People Act 2014*, including introducing the Named Person

Service; the Child's Plan; the *Early Years Framework*; *Raising Attainment for All*; *Developing Scotland's Young Workforce – Scotland's Youth Employment Strategy*.

Children's Health and Social Care Services are also included in Health and Social Care Integration and this Plan provides a solid basis on which the Integration agenda can build.

We reckon we spend approximately £105 million on services for children between all agencies in the partnership - see the section in this plan called '**More about what we spend in partnership on children and young people's services**' (Section 9.6). That sounds like a lot of money but in reality we have

more and more needs to meet with less and less money at our disposal. We need to

move towards more early intervention with a shift towards prevention - see the section in this plan called '**More about the shift to early intervention**' (Section 9.7).

We remain in a time of tighter budgets, shrinking resources and increased demand for services. This is even more reason that we must work together so that we make best use of the resources we have.

It is also the reason why we expect this plan to be a living document that will grow and adapt over the next three years as we implement the changes and monitor the impact within our communities and on the wellbeing outcomes for our children and young people.

This plan, and the Children's Strategic Partnership, recognise that no one service works in isolation, that to effectively meet need we must continue to develop our partnership approach - therefore the plan concentrates on activity undertaken by partners working together to improve outcomes rather than single-agency activity or priorities, which may inform individual service plans.

We are bound together by a common commitment to early intervention – to prioritise and shift our spending in the context of our shared vision and values, which are outlined in the next section.

# 1 Our partnership vision and values

getting it right for all East Lothian children & young people

# Section 1: Our partnership vision and values

## Our vision

East Lothian Partnership agreed that the overarching statement of intent for our work together (focussed on improving the lives of everyone in East Lothian) is:

*“We will work in partnership to build an East Lothian where everyone has the opportunity to lead a fulfilling life and which contributes to a fair and sustainable future.”*

The East Lothian Partnership is committed to making sure that all services work together to meet common goals and develop effective partnership working across all sectors – public sector, third sector (voluntary and charity) and private sector – and most importantly with the people and communities of East Lothian.

The overarching priority in East Lothian is to reduce inequalities both within and between our communities. This places a ‘prevention and early intervention’ approach (along with the promotion of equality and respect for diversity) at the heart of our partnership working.

It is within this context that the Resilient People Partnership and the Children’s Strategic Partnership agreed a Partnership Vision that applies to all of our work affecting the lives of East Lothian’s children and young people:

*“We will work together with children, young people and their families, delivering well-integrated, seamless services which result in positive outcomes for children and young people; we will “get it right” for all of East Lothian’s children and young people.”*

## Our values

Working together to achieve improved outcomes for East Lothian’s children and young people, it is important everyone providing support and services for our children and young people share a common set of values, irrespective of which service or partner agency they work within.

The Resilient People Partnership and the Children’s Strategic Partnership have agreed the following values that we hope to see applied in the principles of practice and the approach taken in our partnership working with children and young people:

- we will focus our thinking and our actions on the needs of the child or young person
- we will intervene early to make sure children and young people get the help they need when they need it
- we will respond to each child or young person’s needs in a personalised, proportionate, appropriate and timely way
- We will work together to assess the needs of individual children and young people and to meet needs in a co-ordinated way
- we will provide targeted support to children and young people in greatest need

# Section 1: Our partnership vision and values

- we will develop services to meet the needs of children and young people at
- the earliest **and** lowest level of need to prevent higher levels of need developing
- we will work together to help and strengthen the abilities of children, young people, families and communities to achieve improved outcomes for themselves
- we will fully consider the ethnic, cultural, religious and language needs of children and young people when we work with them
- we will support children, young people and families to be involved in planning the services they need
- we will ask children, young people and families how effective our supports and services have been for them and make service improvements based on their feedback.

We intend that the influence of our vision and values can be seen clearly in the outcomes and actions contained later on in the actual Wellbeing Indicator (SHANARRI) plan.

## 2 Who are our children and young people and what are they telling us?

getting it right for all East Lothian children & young people

# Section 2: Who are our children and young people?

## All children and young people in East Lothian

Total number of people in East Lothian aged 0-21: 26,061

**Live births = 1,057**

*2014 Mid Year Population Estimates (GRO(S))*

**0-4 yrs : male 2,974 female 2,882**

**5-11 yrs = male 4,279 female 4,116**

**12-16 yrs = male 2,877 female 2,895**

**17-21 yrs = male 3,034 female 3,004**

**School roll = 13,658**

## Vulnerable children

Proportion of children living in poverty (after housing)

4,847

- Low birth weight babies = 1.75%
- Number of homeless households with children or pregnant women in temporary accommodation = 87 (March 2014)
- Teenage pregnancies = 8.86 per 1,000 females aged 13-15
- School leavers not in positive destinations = 7.8%
- Number of children referred to Children's Hearing = 233
- Proportion of primary pupils eligible for free school meals = 11.3%
- Proportion of secondary pupils eligible for free school meals = 8.6%

## Children in Need

Number of referrals to Children's Wellbeing

3,258

- Children on Child Protection Register = 27
- Looked After Children – number at home = 50
- Looked After Children – number in the community = 88
- Looked After Children – number in residential care = 28
- Kinship Care children = 44 (formal kin care)

*(As at 31 March 2015)*

East Lothian is the 21st largest area out of Scotland's 32 local authorities in terms of population. An estimated 23,650 children and young people under the age of 20 lived in East Lothian in 2014 (2014 Mid Year population estimates GRO(S)). This represents 23% of the total East Lothian population, a slightly higher proportion than the Scottish average. Our young people's population aged 0-25 years is expected to grow to 33,268 by 2025.

# Section 2: Who are our children and young people?

## Comparisons between children and young people in East Lothian and the rest of Scotland

## Comparisons between children and young people within East Lothian

Measure	Highest school cluster result	East Lothian Average	Lowest school cluster result

You can find out more about who our children and young people are in the **More About Us** section of this Plan in Section 9.

# 3 What are our priorities for East Lothian's children and young people?

getting it right for all East Lothian children & young people

# Section 3: What are our priorities?

## What are our priorities for East Lothian's children and young people?

We have assessed the 'make up' of East Lothian's children and young people, and feedback from them, and have reviewed the outcomes we are currently achieving with them. We have identified and agreed five Partnership Priorities within *the Children and Young People's Services Plan*, linked to and driven by our Single Outcome Agreement and multi-agency planning supporting service delivery. We've identified these as our priorities because the Scottish Government has as its ambition 'to make Scotland the best place in the world to grow up for all babies, children, mothers, fathers and families'. We can see from our assessment of current outcomes for all children and young people in East Lothian that we can improve outcomes in these five core aspects of services for all children and young people.

**Early Years - East Lothian's children have the best start in life and are ready to succeed**

A child's world in the early years of life is largely defined by the family. We know that a child brought up in a stable and nurtured environment is better placed to succeed in life, than a child from a less secure background. The belief is that the biggest gains in improved outcomes and reduced inequality will come from supporting parents – to help them help themselves – and by creating communities which are positive places to grow up.

In October 2012, the Scottish Government launched the Early Years Collaborative (EYC). It was the world's first multi-agency, bottom-up quality improvement programme to support the transformation of early years. Its focus is on strengthening and building on services using improvement methodology. This enables local practitioners to test, measure, implement and scale up new ways of working to improve outcomes for children and families.

The Early Development Instrument (EDI) is used in East Lothian to assess how 'ready'

children are for primary school and learning. It concluded that 4% of children in East Lothian are already identified as having additional **needs**. A further 9.5% are recognised as having problems needing further assessment by teachers, parents or other professionals. Girls are less likely to be developmentally vulnerable than boys (consistent with other research) and older children less likely to be developmentally vulnerable than younger children.

**East Lothian's Young Workforce – "Positive Destinations"- All of East Lothian's young people are successful learners, confident individuals, effective contributors and responsible citizens and are supported into further education, training or employment**

East Lothian is below the Scottish average in terms of leavers going on to positive destinations, and higher for those leavers not in education, employment, or training. The proportion of leavers going on to positive destinations has increased recently, whilst

# Section 3: What are our priorities?

those not in positive destinations has decreased.

The proportion of 18-24 year olds claiming Job Seekers Allowance in East Lothian during September 2014 was more than double the average for people of all ages in East Lothian – 4.0% compared with 1.9%.

417 people began Modern Apprenticeships in East Lothian during 2013/14 and 359 ended apprenticeships. There has been a steady increase in the number of people going through Modern Apprenticeships since their establishment. East Lothian has seen year-on-year increases, where as the Lothians and Scotland have seen fluctuations in the numbers going through Modern Apprenticeships.

## **Corporate Parenting – The outcomes of looked after children and young people match the outcomes of other children**

Young people who are looked after have, on average, poorer outcomes than those who are not looked after. Educational attainment and positive destinations on leaving school are on average worse. In East Lothian, the average Tariff Scores (points

given for academic progress through the examination system) for Children who are looked after in S4 is 95.6 compared with a non-looked after average of 194.9.

Young people with care experience are disproportionately affected by homelessness. In 2014/15, there were almost 1,500 homeless applications from ex-looked-after young people out of a total of 35,764 in Scotland. East Lothian received 190 homeless applications from young people in 2014/15.

Of the 43 care experienced young people receiving an After Care service in East Lothian, 54% are in positive destinations (that is, Education, training or Employment).

## **Children are safe – We will work together to keep children and young people safe embedding the Signs of Safety approach in the assessment of risks and needs for vulnerable children and young people**

It is estimated that for every child identified as needing protection from abuse, another eight are suffering from abuse. There are currently 50,000 children identified as

needing protection from abuse in the UK and over 29,000 children and young people talked to Childline about abuse last year. In Scotland, the biggest concern that was presented at case conferences last year was parental substance misuse closely followed by emotional and domestic abuse.

Between 1<sup>st</sup> April 2014 and 31<sup>st</sup> March 2015 there were 280 child protection Initial Referral Discussions (IRDs) held for East Lothian children. For 70 children, this was a repeat IRD within the space of 15 months. Fifty-eight per cent of East Lothian children on the Child Protection Register are under the age of five. There has been a continual reduction in the number of East Lothian children on the Child Protection Register over the last twelve months and at 30<sup>th</sup> September 2015 the number was 20. This represents a rate per 1,000 (0-15) of 1.1 compared with a national rate of 3.2 per 1,000 (0-15).

The Children's Wellbeing division in East Lothian council has 858 allocated cases (0-18). This represents one child/young person in every 26 of the 0-18 population.

# Section 3: What are our priorities?

## **Additional Support Needs and Disability – Children with a disability make appropriate progress taking into account their age, aptitude and abilities**

In Scotland in 2014, 140,542 pupils (20.8% of all pupils) had additional support needs, of which 62% were boys. About 4.2% of pupils had social, emotional or behavioural difficulties and another 2.3% had a learning disability. (95% of them) are in mainstream schools, making up 19.9% of mainstream school pupils. In East Lothian this equates to 4,665 0-17 year olds. In 2013/14, 87.9% of school leavers with additional support needs in East Lothian entered a positive post school destination.

## **Cross-cutting themes in delivery of services for East Lothian's children and young people**

These priorities share a number of cross-cutting themes including -

### **Participation and service-user involvement**

Each of our Planning Groups has been tasked with evidencing how they have sought the views of children, young people

and families and how they have used this feedback and information to inform service provision and action. As part of the reporting cycle to the Children's Strategic Partnership, Planning Group Chairs will update the partnership on how they have embedded participation in what they do.

### **Transition**

Some of our children and young people face complex issues in their lives and their needs span the remit of different strategic remits and operational services, for example, Health, Education, Children's Wellbeing, Adult Wellbeing and Housing. Examples of areas of focus in our work on transitions are in respect of the 'Named Person' service and the function which sees the transitions of the Named Person responsibilities from Health to Education. Also, in 2015 work has progressed to review how young people are supported in their transition into independent living from a care setting.

Our planning processes around these transitions, whether these are at age or stage, are being considered in each of the Planning and Delivery Groups relevant to the needs of the children and young people the

group supports. To ensure we develop a consistent and robust approach, transition is a theme that the Children's Strategic Partnership will monitor and the Supporting Planning Officers from each group will progress as part of their regular meetings.

### **Training and development**

While there will be specific training and development needs that each of the planning and delivery groups engages with, we will consider overlapping training needs and opportunities as these arise (for example, around the implementation of the various aspects of *the Children and Young People (Scotland) Act 2014*). We have recently appointed a Lead Education Officer to progress the implementation of parts 4 (Named Person), 5 (Child's Plan) and 18 (Wellbeing Assessment) of the Act and have established a multi-agency group to develop and deliver multi-agency training. We are also carrying out a review of our Staged Assessment and Intervention approach, aligned with the implementation of the Named Person function and will incorporate awareness-raising of the revised model into this training programme.

# Section 3: What are our priorities?

## Prevention and Early Intervention

*The East Lothian Plan: Single Outcome Agreement (SOA) 2012-23* is our 10 year strategic plan to improve the lives and opportunities of East Lothian's people.

Our SOA has one overarching priority - 'to reduce the inequalities across and within our communities.'

The ambition and aspirations set out in the SOA will only be achieved if all partners work together. A shared focus on moving from reactive to preventative and early intervention services is embedded within all of our work. This plan is no different and a focus on prevention and early intervention underpins all of the work undertaken within the Children's Strategic Partnership planning and delivery groups, requiring partners to identify and agree joint service priorities with an equivalent shift and refocusing of individual partner resources to enable those joint priorities to be met. To find out more about our shift of focus, read the information in the **More About Us** section of this plan.

## Children and young people's mental health

*The NHS Lothian Strategy for Children and Young People (2014-2020)* quotes official UK statistics, estimating that 1 in 10 children between the ages of 1 and 15 has a mental health disorder.

Many mental health problems start early in life. Half of those with lifetime mental health problems first experience symptoms by the age of 14. We know that mental health will impact on every aspect of a child and young person's life and therefore responding to the issue needs a coordinated approach.

In the quarter ending September 2013, 1,014 referrals were made to the Child and Adolescent Mental Health Services (CAMHS). The referral rate per 1,000 people under 18 for East Lothian was 25.4, significantly higher compared to the whole of the Lothians (6.8) and Scotland (5.3).

CAMHS generally operate their service at the highest level of need, referred to as 'Tier 3', and so for many young people their

mental health has deteriorated significantly before they can access the CAMHS service.

Speaking directly to the Children's Strategic Partnership in October 2015, young people representing the East Lothian Champion's Board highlighted the importance of mental health. Therefore the Partnership will prioritise it as a key theme for the partnership groups, building on examples of good practice. For example, our Looked After Children's Nurses team now include mental health and emotional wellbeing as part of their overall health assessment of looked after children and young people. In the period January to August 2015, the LAC Nurse Service received on average 4.5 new referrals per month and carried out assessments of these young people within four weeks (as per the service target).

Intervening and providing supports much earlier, when a young person's mental health is identified as a concern, is a partnership priority.

# 4 Review of our 2013-2017 plan

getting it right for all East Lothian children & young people

# Section 4: Review of our 2013-2017 plan

## **Review of East Lothian Integrated Children's Services Plan 2013- 17**

This section reports on our progress in implementation of our existing *Integrated Children's Services Plan, 2013-2017*.

We report on current progress in achieving the key Outcomes for East Lothian's children and young people as stated in our East Lothian Plan.

We also outline our key achievements in improving the wellbeing of children and young people during the period 2013 - 2015. These achievements are reported under the wellbeing indicator headings as this helps connect the previous 2013-2017 plan to the new 2016-2019 plan.

# Section 4: Review of our 2013-2017 plan

## Priority 1 - Early years and early intervention:

### Medium-term outcomes:

- **Women have a positive experience of pregnancy**

Indicator	2013/14	2014/15	Target
Proportion of women who are identified as smoking at antenatal booking	18.4%	16.5%	18%
Proportion of women in each Scottish Index of Multiple Deprivation quintile booked for antenatal care by the 12th week of gestation	90.2% baseline	92.3%	90%

- **Families are supported**

Indicator	2013/14	2014/15	Target
Percentage of children who have reached their developmental milestones by their 27-30 month health review	80.4%	81.9%	81%

- **All children are ready to start primary school**

Indicator	2013/14	2014/15	Target
P1 On-Entry (baseline) average total PIPS scores	50.97	50.24	51

# Section 4: Review of our 2013-2017 plan

## Priority 2- Curriculum for Excellence/Staged Assessment and Intervention

### Medium-term outcomes:

- All children - particularly those at risk, looked after or with a disability - make appropriate progress taking into account their age, aptitude and abilities

Indicator	2012/13	2013/14	Target
Proportion of school leavers entering positive destinations	89.9%	92.2%	93.2 %

- Young people and children are involved in community life and their achievements are recognised

Indicator	2013/14	2014/15	Target
Percentage of P6 and S2 pupils agreeing that their school recognises their achievements out of school	60%	61.9%	65%

- Getting It Right For Every Child is effectively and safely implemented

Indicator	2013/14	2014/15	Target
% of pupils who have heard of the 'Wellbeing Indicators' (Safe, Healthy Achieving Nurtured Active Respected, Responsible and Included)	N/A	39.5%	50%

# Section 4: Review of our 2013-2017 plan

## Priority 3 – Corporate parenting

### Medium-term outcome:

- The outcomes of Looked After children match the outcomes of other children

Indicator	2012/13	2013/14	Target
Percentage of school leavers, looked after away from who are in a positive destination	64.3%	70%	72.9%

- Children are cared for in their communities, schools and families

Indicator	2013/14	2014/15	Target
The percentage of Looked After children who are accommodated in the community	87.3%	87.7%	88%

## Priority 4 - Child protection

### Medium-term outcome:

- Children are safe

Indicator	2013/14	2014/15	Target
The percentage of children on the Child Protection Register reregistered within a 12 month period	0%	1.5%	Less than 5%

# Section 4: Review of our 2013-2017 plan

## Priority 5 – Additional support needs/disability

### Medium-term outcomes:

- Children with a disability make appropriate progress taking into account their age, aptitude and abilities

Indicator	2012/13	2013/14	Target
Percentage of school leavers with Additional Support Needs in a positive destination	79.7%	86.2%	88.7%

- Young people and children with a disability are involved in community life

Indicator	2012/13	2013/14	Target
Increase percentage of children with additional support needs who have an allocated social worker using Viewpoint	n/a	n/a	20%

# Section 4: Review of our 2013-2017 plan

## Achievements in 2013- 2015

### SAFE

#### Signs of Safety

In April 2013, East Lothian introduced the Signs of Safety approach to its child protection intervention and assessment process. Its introduction is part of a five-year plan. The Signs of Safety approach is a solution-focused, safety-oriented model of intervention. It aims to have a greater focus on planning, enabling families to present their views, ensuring that all views are grounded in evidence, placing strong emphasis on relationships, reducing power inequalities and building on existing strengths in families. The Signs of Safety approach was initially adopted in relation to initial child protection case conferences and following a positive evaluation of this approach was subsequently adopted in relation to all case conferences and core group meetings.

### Public Protection Unit

The East Lothian and Midlothian Public Protection Committee (EMPPC) was established in July 2014, incorporating the duties and functions of the Adult Protection Committee, Child Protection Committee, Offender Management Committee and Violence Against Women Partnership and to ensure robust links with Midlothian and East Lothian Drug and Alcohol Partnership (MELDAP) and Police Scotland. A Public Protection Team was also established and is located in The Brunton, in Musselburgh. This multi-agency team works in a more integrated way to strengthen public protection practice, sharing skills and resources and giving innovative opportunities for a more joined-up response, which will improve outcomes for our most vulnerable service users.

### HEALTHY

#### Preconception and perinatal

Preventative work begins even before women conceive. Unplanned teenage pregnancies have reduced since 2005, attributable in great part to initiatives such as Healthy Respect; C:Card etc. For young women concerned about being pregnant, Healthy Respect Drop-Ins exist throughout East Lothian, staffed by school nurses and youth workers and offering pregnancy testing, sexual health information and options. Young women who are pregnant and wishing to continue with pregnancy are supported to access their midwife quickly. The Antenatal HEAT Target is currently being exceeded, with booking at eight weeks versus the national average of 12 weeks and in excess of 90% of women being booked within 12 weeks. This ensures that any health, wellbeing or safety related issues can be identified and addressed quickly.

# Section 4: Review of our 2013-2017 plan

## Health assessment for young people who are looked after

Currently all looked after and accommodated children have a health assessment carried out by the looked after children's nurses within 4 weeks of becoming looked after. Through increased investment from NHS Lothian, all 'Looked After' children, including those at home and in kinship care are now offered a comprehensive health assessment including a mental health screening.

## ACTIVE

### The Group

'The Group' is a youth group for young people who are looked after. It meets every Tuesday evening at the Gate House (opposite Musselburgh Grammar School). The young people in The Group have experience of a range of care settings including residential, foster care and kinship care. The group is open to young people aged 13 plus. There is no restriction on the upper age limit. Young people have taken

part in lots of interesting activities including 'Come dine with me' competitions, bowling and National Who Cares? (Scotland) events and summer camp.

### Sports and leisure

Young people are encouraged to engage in sports activities. Each secondary school has an Active Schools co-ordinator. Each secondary school across Scotland offers two young people the opportunity to become Young Ambassadors; East Lothian has 12 Young Ambassadors. Their key role is to promote sport and motivate and inspire other young people to get involved in sport in a wide range of settings within their local communities, including school, clubs and community organisations.

Swimming is offered as a 10 week block with the aim of achieving the standard of a 25-metre swim. When this is not achieved primary school-aged children get free swimming lessons until they reach this standard.

Children and young people who are looked after and accommodated are increasingly

involved in a range of sport, leisure and cultural activities. This is enhancing their self-esteem and confidence. Staff and young people within the residential houses run a weekly football group and badminton group to promote active lifestyles.

## NURTURED

### Partnership Working - Support from the Start

Support from the Start is a network which works in partnership with local communities and agencies to facilitate a range of positive parenting & play experiences and opportunities as well as sharing learning on good practise in early years.

Local parents and services can access on a 'simple rules' basis small development grants through the SFTS local network. This has led to a range of developments for parents and children from local bursary schemes to baby massage and promotion of free play experiences like 'Pop up Play' and

# Section 4: Review of our 2013-2017 plan

mud play, in community parks or open space settings. Dads Play (offered a half-day on a Saturday) encourages dads to come along with their children and play. Play is also woven into groups supporting young or vulnerable parents. This is provided by family support workers, either through one-to-one at or in group settings.

## Parenting groups

We have established a regular pattern of Parenting Groups and parenting courses, using evidence-based approaches including Incredible Years (for parents of pre-school and primary aged children) Escape (for parents of secondary aged children) and Raising Children with Confidence (for parent parents and carers of children 0-11) . Staff from a range of agencies (including Education, Children's Wellbeing, the Voluntary Sector, Community Learning and Development Services) have been trained in these approaches and deliver four to six programmes a year. Feedback from parents participating in these programmes has been extremely positive.

## Kinship care

In working with children and families, we purposefully look to find strengths and supports within families and their extended family network; this is our commitment to the lowest form of intervention in family life and to 'keeping families together' whenever possible. Since April 2013, our engagement with families has seen the number of children and young people living safely within their families increase significantly, from 32 Formal Kincare placements to 43, and from 27 Informal Kincare placements to 53. Enabling children and young people to remain with their families and relatives, in their local communities, attending local schools and participating community activities, keeps early intervention and prevention connections and supports active.

## Early Years Collaborative

East Lothian Council, Midlothian Council NHS Lothian and voluntary sector services within both East and Midlothian have all agreed to work in partnership for the national Early Years Collaborative. Tests of

change are piloted to promote better outcomes for children and parents. Examples include improved engagement with treatment services for pregnant substance users, and bedtime reading now about to be tested in East Lothian

## Supporting parenting - Olivebank

Olivebank Child and Family Centre provide services for 40 to 50 of the most vulnerable young children. A recent inspection report stated that some parents said the centre "provided them with life-changing experiences and real chances to become good parents." Some felt the centre was instrumental in getting them 'back on their feet' as parents and as individuals."

## ACHIEVING

### East Lothian Works

East Lothian Works was officially launched 15 April 2013. East Lothian's employability-related services work alongside a variety of partners to deliver a range of services from one Haddington town-centre premises. They include Business Gateway, Adult Learning, ELVOS (supported employment

# Section 4: Review of our 2013-2017 plan

service for disabled adults), Community Learning and Development Services and East Lothian Skill Centre (who specifically focus on young people moving into positive post-school destinations).

East Lothian Works developed a programme at the end of 2013 with a focus on looked after young people. With East Lothian Council as the main provider, this programme offers a period of work experience (up to one year) with the opportunity to achieve certificated training, for example, customer care and supported by our partner the Bridges Project.

## **Young People's Duke of Edinburgh and Community Awards:**

In 2014-15, there were 279 new entrants to the Duke of Edinburgh Award and during the same period, 145 young people gained Duke of Edinburgh awards

## **Young People's Volunteering - STRIVE:**

The number of young people achieving Duke of Edinburgh and Saltire awards continues to increase. We have developed a draft

volunteering strategy which includes targeted volunteering activity for young people.

## **Graduate/Work Experience Scheme:**

The East Lothian Works initiative has facilitated the establishment of increased employment and training opportunities for young people across the council and community planning partners.

By end of March 2015, 163 young people had benefitted from paid work or paid work experience job opportunities (including 107 young people employed in new jobs in the private sector). Fifty-six young people were employed within the Council, including 39 paid work experience placements, eight graduate internships and nine new modern apprenticeship opportunities.

## **Positive destinations:**

Numbers of unemployed people participating in council-funded or operated employability programmes and numbers of

unemployed people assisted into work from Council funded or operated employability programmes are both reported quarterly and both continue to reveal positive upturns in trends. East Lothian continues to achieve incremental improvement in school-leaver positive destination results, the most recent increasing from 89.9% to 92.2% of young people leaving school and moving into employment, training or further education.

## **RESPECTED and RESPONSIBLE**

### **Youth E-Panel**

A new Youth E-Panel was launched in 2015 to gather the views of young people between the ages of 14 and 25 living in East Lothian. Once young people sign up as Youth E-Panel members they will be emailed links to regular surveys which will ask for their views on a range of issues including their local community, the environment, education, health and wellbeing, culture, sport and leisure, transport and more.

# Section 4: Review of our 2013-2017 plan

The information gathered through the Youth E-Panel will be used to help plan and improve services relevant to young people. The East Lothian Youth Council and other groups of young people will also use the information to help them identify what's important to young people locally.

## **Listen More Assume Less**

*Listen More Assume Less* continues to report on a range of consultation and participation activities that have taken place with children and young people in east Lothian. Listen More Assume Less has a focus on the voice of young people who are care-experienced and/or who have additional support needs and their parents and carers. The section on what has changed as a result of consultation and involvement activity is a key way of telling children, young people and their families that we have acted on what they tell us.

## **Viewpoint**

Viewpoint is our online survey tool which gives looked after people the opportunity to provide feedback on a range of wellbeing issues. It was re-launched in January 2015. Questionnaires were shortened and young people can now complete viewpoint online. Young people's views are mapped out using a wellbeing web. Viewpoint questionnaires are available for children and young people looked after both at home and away from home and for young people who are involved in child protection processes. A questionnaire for young people when their care placement ends is also available. Use of Viewpoint has improved during 2015 where in the first 6 months of the year 46 looked after young people completed the viewpoint questionnaire, in comparison to 4 in the same period in 2014.

## **INCLUDED**

**Specialist education provision for young people with autism**

In June 2015, East Lothian Council approved the creation of a new specialist education and community provision for children and young people with autism. The new provision will be sited in the renovated former Haddington Infant School building and will be part of the Knox Academy Campus. It will open at Easter 2016 and will have capacity for 30 pupils (following a second renovation phase). Facilities will include five classrooms, an independent living apartment, a sensory room, a cafe area, therapy rooms, a common room and a 'soft play' exercise room.

## **Champion's Board**

The East Lothian Champion's Board was launched on the 1st May 2015. It aims to give young people with care experience a platform to have their voices heard and to influence change in the experiences young people have in the 'care system'. The Board is made up of three groups: the *Champions Group* is made of young people; the *Support Group* is made up of staff that support the

# Section 4: Review of our 2013-2017 plan

young people in every way they can; and the *Ambassador's Group* is made up of Heads of Services and Elected Members. The young people have identified seven priorities for change. These are:

- education
- keeping loved ones together
- supports available to parents
- housing
- finance
- aftercare support
- police

The Champion's Board has applied for a three-year package of funding through the Life Changes Trust to help them form and shape their own programme of work over the next three years.

## ZAP

ZAP is a specialist youth group for young people with autism, from across East Lothian, delivered at Prestonpans Community Centre.

## Young Mums Group

The Young Mums Group supports an integrated holistic service to young parents. It provides a dedicated and integrated service for vulnerable young parents in East Lothian. The Young Mum's group improves outcomes for both mother and child. Positive outcomes reported by members of the group include:

- increase in confidence in their parental skills
- positive parent/child attachment
- reduction in future involvement from social work services
- increased opportunities for their children to socialise and learn and develop

## General achievements

In addition, over the period of the current Plan, we have progressed a lot of prevention and early intervention work aimed at supporting increased resilience and capacity in our communities:

## Parenting

In 2014/15 we introduced the Psychology of Parenting Programme, targeting this service to families interested in developing positive parenting approaches, particularly in parenting young children or teenage young people.

During 2015, commitments have been made by NHS Lothian to bring the Family Nurse Partnership to east Lothian early in 2016, focussing on supporting young parents in their early experiences of parenting.

## Families

Our 'Musselburgh Total Place: Family Focus' project, which began in March 2014, and has focussed on partnership working across the Musselburgh area, to identify opportunities to develop better integrated supports and services for families facing challenges. This project will share its findings in 2016, and redesign services and shift resources to address the recommendations agreed between partners.

# Section 4: Review of our 2013-2017 plan

## Early Learning and Childcare

In the academic year 2014-15, we allocated 2130 out of 2134 applications for 600 hours of early learning and childcare for three and four year olds at local authority nurseries. In addition 359 children accessed 600 hours of Early Learning and Childcare in our partner provider nurseries.

Eighty-five applications were also received for early learning and childcare places for the group of children referred to by Scottish Government as 'Priority 2's' i.e. children aged 2 for whom additional early learning and childcare support would be helpful. Geographically, most of 'Priority 2' need is located in the west of the County. Of the 85, 84 children were allocated places in partner and community childcare facilities.

This equates to 70% of the Scottish Government's predicted number of 120 children in East Lothian who meet the qualifying criteria. We have therefore set our target at 80% in this plan.

To learn more about our partnership

approach to early intervention and prevention, go to the **More About Us** section ... see Section 9 at the end of this plan.

# 5 How have we structured the plan and why?

getting it right for all East Lothian children & young people

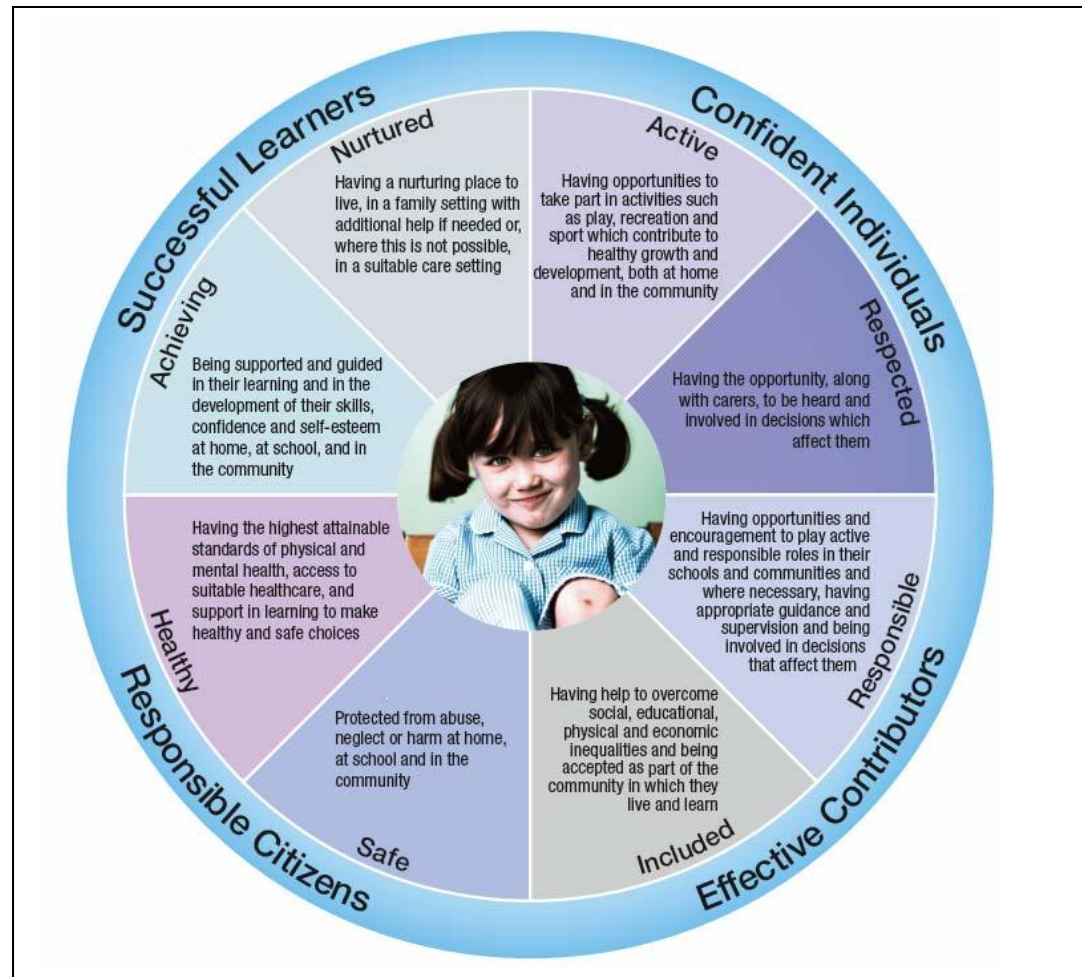

# Section 5: How we have structured this plan and why

Underpinning our vision and values are the eight indicators of wellbeing in children and young people: that they are **safe, healthy, active, nurtured, achieving, respected, responsible and included** (sometimes referred to for short as ‘Wellbeing Indicators’). These wellbeing indicators were set out around a decade ago by the Scottish Government, and have now become the legal definition of wellbeing in children and young people in Scotland under Section 96 of the *Children and Young People (Scotland) Act 2014*.

We are also mindful of the use of these Wellbeing Indicators in the National Practice Model which underpins our practice when assessing and planning for individual children. (See [Section 12 Appendices](#) for more information about the National Practice Model.)

They form the outcomes we want to see for all our children and young people and so each of the Wellbeing Indicators has its own section in this plan. Therefore the wellbeing indicators form the Outcome Framework for

the plan, which all partners have agreed to use to measure progress in achieving outcomes for children and young people.

# Section 5: How we have structured this plan and why

## Better Outcomes for East Lothian's Children and Young People

### **SAFE**

1. Children are protected from abuse, neglect or harm at home, at school and in the community.
2. Children are well-equipped with the knowledge and skills they need to keep themselves safe.
3. Young people and families live in increasingly safer communities where anti-social and harmful behaviour is reducing.

### **HEALTHY**

4. Children and young people experience healthy growth and development.
5. Children and young people make well-informed choices about healthy and safe lifestyles.

### **ACHIEVING**

6. Children and young people are equipped with the skills, confidence and self-esteem to progress successfully in their learning and development.
7. Children and young people are supported to achieve their potential in all areas of development.

### **NURTURED**

8. Children and young people thrive as a result of nurturing relationships and stable environments.
9. Families receive support, advice and guidance which is well-matched to their needs and available in ways which helps them to prepare for the various developmental stages.

### **ACTIVE**

10. Children and young people are physically active.

### **RESPECTED AND RESPONSIBLE**

11. Children and young people know their rights and are confident in exercising these. They are able to express their views and be involved meaningfully in decisions which affect them.
12. Families are valued as important contributors and work as equal partners to ensure positive outcomes for their children and young people.

### **INCLUDED**

13. Children, young people and their families are supported well to develop the strengths and resilience needed to overcome any inequalities they experience.
14. Children, young people and families are enabled to tell us what they think about services and the community in which they live, and improvement is determined with their involvement and by understanding their views, wishes, and expectations.

In East Lothian, all of our work to achieve positive wellbeing outcomes for our children, young people and families is underpinned by the National Practice Model for Getting It Right for Every Child (GIRFEC), a framework for partnership working ensuring we share, assess and plan for children and young people in the best way we can. For more information about the National Practice Model, please see the Appendix.

# 6 Our plan for improving the wellbeing of children

getting it right for all East Lothian children & young people

# Section 6: Our plan for improving wellbeing

## Our plan for improving the wellbeing of East Lothian's children and young people 2016-2019

This section of the plan provides detail of what we aim to achieve and how we will do this over the next three years.

We have not presented the full range and extent of activity undertaken by all the partnership groups and services that support and engage with children, young people and families. Much of this detail can be found in the specific action plans and strategies which inform the work of these groups and services and it is not our intention to merely duplicate this information. Instead we have outlined what we regard as the high level priorities which the Children's Strategic Partnership will concentrate on.

We have grouped these priorities under the most relevant Wellbeing Indicator, although we recognise that there is much overlap, as they do not sit in isolation from each other.

The **performance indicators** we have included in each section highlight what we

want to change, usually by increasing, reducing or reviewing percentages. The **baseline** states where we are now (in April 2016 or based on the most recently collected and published data) and where we want to be by March 2019.

The **action** describes what we will do to achieve the stated **outcome** and the **evaluation** provides us with the evidence of the extent to which we have achieved it.

Finally, the '**lead**' describes which partnership group or service is responsible for driving the achievement of the Outcome in partnership, making sure the relevant group/s and services deliver on the specific action/s required.

Rather than tracking a lot of actions ourselves, our intention as a Partnership is to 'chase the outcomes', together, making sure that all partners are focused on these for the best collective impact on achieving

the outcomes sought for East Lothian's children and young people

## 1.1 What we aim to improve

1. Pre-birth: Women are supported during pregnancy and during postnatal period
2. Children are protected from harm in the community
3. Children are protected from harm at home
4. Children are protected from harm at school
5. Young people are safe and can access appropriate accommodation on leaving care
6. Child's transitions take place seamlessly and through GIRFEC process

Performance indicator	Baseline 2015	Target 2019
Proportion of women in each SIMD quintile booked for ante-natal care by 12th week of gestation	90%	92% by 2017
Number of children under 2 on Child Protection Register due to Parental substance misuse	4	2
Proportion of Child Protection plans audited as SMART	26%	100% by 2017
Proportion of secondary school staff receiving training in radicalisation programme	0% in 2015	100% by 2016

## 1.2 How we plan to do it

Outcome	Action	Evaluation	Lead
Women are supported during pregnancy and during postnatal period	Develop a better understanding of the reasons behind non-engagement during pregnancy (SOA 5)	Service user feedback	Early Years Planning & Delivery Group
Women are supported during pregnancy and during postnatal period	Develop a specialist support for pregnant women misusing substances (SOA 5, 6, 7)	Service User Feedback	Early Years Planning & Delivery Group
Children at home who have been identified as being at risk of harm are kept safe	Implement the Signs of Safety Action Plan 2014-19 (SOA 4 and 7), working with families to ensure all child plans make a practical difference by being specific, measurable, achievable, realistic and time-based. (SOA 7)	Audit of child Protection Plans	Signs of Safety Steering Group
Children at home who have been identified as being at risk of harm are kept safe	Ensure all children have a multi-agency chronology (SOA 7)	Audit of Child Protection Plans	Named Person Service
Children are protected from harm at school	Implement the Education Service Anti-bullying Policy (SOA 7 and 10)	Monitoring Reports	Senior Management Education Board

# Safe

at home, at school, in the community

Outcome	Action	Evaluation	Lead
Children are protected from harm at home, at school and in the community	Implement the E-safety plan (SOA 7 and 10))	Annual Report to Public Protection Committee	Senior Management Education Board
Children are protected from harm in the community	Implement the <i>Child Protection Improvement Plan</i> (sexual exploitation; communication, chronologies; risk management of young people putting themselves at risk; approaches where children fall below the child protection threshold; developing SMARTER plans for children producing an annual report on the work of the Public Protection Committee) (SOA 4 and 7)	Audit of Child Protection case files	Head of Children's Wellbeing/ Signs of Safety Steering Group
	Explore widening the extension of car exclusion zones at/near schools to reduce road traffic accidents involving children and young people (SOA 3,6,7, 8)	East Lothian Council Evaluation of Pilot	Road Services
	Provide appropriate "Relationships, Sexual Health and Parenthood" programme for children and young people with additional support needs and disabilities and build capacity of parents and carers (SOA 4, 6,7,10)	Healthy Respect evaluation of programme	Additional Support Needs/ Disability Planning & Delivery Group
	Adapt public protection face to face and e-learning training to incorporate new legislation on radicalisation (SOA 7and 10)	Workforce Development Participation data	Public Protection Committee
Young people are safe and can	Develop increased availability of specialist housing provision as well as emergency housing provision for young people who are looked after	Audit of Care Leaver Pathway	Housing Service / Corporate

# Safe

at home, at school, in the community

Outcome	Action	Evaluation	Lead
access appropriate accommodation	(SOA 2,6, 9)	Plans	Parenting Planning and Delivery Group
Child's transitions take place seamlessly and through GIRFEC process (SOA 4 and 5 and 9)	Implementation of Named Person Service pre-birth to age 18 (ASOA 4,5,6,7)	NHS Lothian Service User Feedback  Student Evaluation of Education Experience Survey	Named Person Service
Children and young people's experiences of bullying in schools reduces	Update and implement the anti-bullying policy within all nurseries and schools (SOA 7,10)	Incident data reports  Student Evaluation of Education Experience Survey	Senior Management Education Board

## 2.1 What we are aiming to do

1. Women are better supported during pregnancy and during the post natal period
2. All children achieve their developmental milestones by 27-30 month review and on starting P1 (also contributes to Achieving)
3. Looked after children's health is similar to that of all children
4. Children and families living with autism receive timely diagnosis and supports
5. Children, young people and young parents make informed choices about their sexual health
6. Children and young people's mental health and wellbeing outcomes improve

Performance indicator	Baseline 2015	Target 2019
Percentage of children exclusively breastfed at first visit	39.1%	45.0%
Percentage of 13 year olds that think it's OK to try smoking	24.0%	20.0%
Percentage of 13 year old that think it's OK to try alcohol	49.0%	45.0%
Child obesity in Primary 1	9.0% (2013/14)	Equal to or less than 9.0%
Percentage of Looked after children's health assessments carried out within 4 weeks of placement	100%	100%

## 2.2 How we plan to do it

Outcome	Action	Evaluation	Lead
Women are supported during pregnancy and during the post natal period	Plan to reduce maternal stress and resulting harm to unborn child (SOA 2, 5, 7) including: <ul style="list-style-type: none"> <li>targeted support for parents/main care givers in the 'at risk' group;</li> <li>improved capacity of staff;</li> <li>working to include fathers / improving secure attachment;</li> <li>signposting to money advice;</li> <li>support around domestic abuse</li> </ul>	Maternity Collaborative / NHS Lothian Tests of Change	Early Years Planning & Delivery Group
	Plan to improve maternal nutrition (SOA 2, 5, 10): <ul style="list-style-type: none"> <li>achieve the UNICEF Baby Friendly award;</li> <li>promotion of breast feeding;</li> <li>promotion of Healthy Start vouchers and vitamins</li> </ul>	East Lothian Early Years Collaborative Tests of Change	Early Years Planning & Delivery Group
	Safer environment: <ul style="list-style-type: none"> <li>develop specialist support for pregnant women using substances (SOA 2, 6);</li> <li>offer access to safe housing for women and children affected by domestic violence (SOA 9)</li> </ul>	Public Protection Office: Violence Against Women Lead Officer Quarterly Reports	Signs of Safety/Child Protection Steering Group
	Roll-out of Family Nurse Partnership (SOA 2,5,6)	NHSL Annual Implementation Update Report	Early Years Planning & Delivery Group

## 3.1 What we aim to improve

1. Children experience positive parenting and good attachment
2. Children have good opportunities for play and development and are ready to learn
3. All our children meet or exceed development for their age and ability
4. An improvement in the attainment of the lowest performing 20% of East Lothian's school age children and especially looked after children
5. An increase in the number of pupils and school leavers with well developed employability skills

Performance indicator	Baseline 2015	Target 2019
Number of parents taking up places in Psychology of Parenting Programmes	65	242 (By 2016)
Percentage of eligible 3 and 4 year olds accessing the 600 hours of early learning and childcare scheme	98%	99%
Percentage of eligible (Priority) two year olds accessing the 600 hours of early learning and childcare	70%	80%
Percentage of P1 pupils making progress as expected or quicker than expected in reading	73% (2013/14)	75%
Percentage of P1 pupils making progress as expected or quicker than expected in Mathematics	69.2% (2013/2014)	75%
Percentage of pupils with Additional Support Needs (ASN) entering positive post school destinations	86.2% (2013/14)	87.9%
The average total tariff score for the lowest attaining 20% of school leavers	179 (2013/14)	225 (2017)
Percentage of school leavers entering positive destinations	92.5% (2013/14)	95%

## 3.2 How we plan to do it

Outcome	Action	Evaluation	Lead
Children experience positive parenting and good attachment	All parents of Priority 2's and 3 and 4 year olds have access to Incredible Years or Triple P Parenting programmes (SOA 5,10 )	Evaluation by PoPP by the national database	Early Years Planning & Delivery Group
Children have good opportunities for play and development and are ready to learn	Develop East Lothian Play Strategy linking to National Play Strategy; Provide learning through play opportunities for children and identify next steps for learning (SOA 3,4,5,6,8,10)	Support from the Start Annual Report	Early Years Planning & Delivery Group / East Lothian Play Association
Children have good opportunities for play and development and are ready to learn	Improve readiness of boys to start school (SOA 2,4,5)	P1 PIPS data EDI Data	Nursery Providers/Support from the Start Area Groups
	Continue to promote Queen Margaret University's Children's University to 5-14 year olds. (SOA 4,10)	Participation Data	QMU
All our children meet or exceed development for their age and ability	Maintain the Bookstart programme (including training for staff); provide access to therapeutic support following assessment (SOA 2,4,5 and 6)	Participant Evaluation	Early Years Planning & Delivery Group

# Achieving

becoming successful learners, confident individuals, responsible citizens and effective contributors

All our children meet or exceed development for their age and ability	Implement the new <i>3-18 Numeracy and Mathematics strategy</i> and the <i>3-18 Literacy strategy</i> (SOA 2,4,5,6)	Education Reports Quality Improvement Reviews	Senior Education Management Board
	Continue to support and challenge schools to raise attainment overall as measured by national examinations through improved analysis of data, improved professional judgements, the target setting process and improved learning and teaching (SOA 2,4,5,6)	Benchmark Data	Education Service
Improvement in the attainment of the lowest performing 20% of East Lothian's school age children and especially looked after children	Work with partners to enhance the school vocational programmes including Senior Phase Opportunities and promote opportunities available for target groups to participate in South East Scotland Academies Partnership. Link in with Champion's Board Education priority (SOA 1,2,4,6 )	Champion's Board annual report	SMEB Champion's Board
An increase in the number of pupils and school leavers with well developed employability skills	Implement <i>Developing East Lothian's Young Workforce</i> plan in line with strategy from Scottish Government(SOA 1,2,4,6 )	School Leaver Destination reports and Participation Measure	Developing East Lothian's Young Workforce – Positive Destinations Group
	Continue to focus on commissioning of provision across the county to meet the needs of all young people, taking into consideration the rural nature of East Lothian and the needs of young people with additional barriers, e.g. young carers, Looked After Children etc. (SOA 1,2,4,6)		

# Achieving

becoming successful learners, confident individuals, responsible citizens and effective contributors

Better outcomes for Young People in further learning and employment.	Continue to support the 16 plus hub and prioritise young people who are eligible for aftercare service within ELWorks services. (SOA 1,2,4,6)	School hub monitoring data	Developing East Lothian's Young Workforce – Positive Destinations Group

## 4.1 What we aim to improve

1. Children experience positive parenting and good attachment
2. Children are cared for in their communities, schools and families
3. Children and young people who are looked after have better long-term outcomes

Performance indicator	Baseline 2015	Target 2019
Increase the percentage of Looked After children who feel settled where they live	82%	90%
Increase the proportion of Looked after children and young people in Kincare	22%	30%
Reduce the proportion of Looked After children in external residential placements	43%	30%

# Nurtured

a nurturing place to live in a family setting with additional help if needed or, if not possible, in a suitable care setting

## 4.2 How we plan to do it

Outcome	Action	Evaluation	Lead
Children experience positive parenting and good attachment	Ensure equitable access to services and parenting programmes: maintain Pathways of Support in every cluster through universal and targeted services; all Priority 2's and vulnerable 3 and 4 year olds parents/carers have access to Incredible Years or Triple P; provide appropriate training for staff in attachment and parenting (SOA 5)	Evaluation of PoPP via the national database	Early Years Planning and Delivery Group
Children are cared for in their communities, schools and families	Expand the range of foster placements available by focusing the Foster Carers recruitment on teenage and sibling placements (SOA 10)	Annual report from the Champion's Board	Corporate Planning Delivery Group
Children are cared for in their communities, schools and families	Deliver on all actions identified by the Kinship Care Steering Group (SOA 10)	Report to the CSP	Corporate Planning Delivery Group
Children are cared for in their communities, schools and families	Reduce the numbers of children with severe and complex needs placed away from home (SOA 4,10)	Annual review of External Placements	Multi-agency Resource Group and ASN/Disability Planning & Delivery Group

# Nurtured

a nurturing place to live in a family setting with additional help if needed or, if not possible, in a suitable care setting

Children and young people who are looked after have better long-term outcomes	Deliver family interventions that work to strengthen families so that children can safely stay with them (SOA 4)	National statistics on positive destinations for Looked After young people	Developing East Lothian's Young Workforce: Positive Destinations Planning & Delivery Group
	Work with education partners such as Edinburgh College and Queen Margaret University to ensure Looked After Children have equitable advice and guidance re progression to post-school Further Education and Higher Education opportunities (SOA 2,4 )		
Children and young people who are looked after have better long-term outcomes	Review financial arrangements for Looked After Children and ensure they have access to all financial supports / benefits (SOA 2) Champion's Board priority	Champion's Board annual report	Corporate Parenting Planning & Delivery Group
Children and young people who are looked after have better long-term outcomes	More targeted out of hours support for former looked after children (SOA 10)	Champion's Board Surveys	Corporate Parenting Planning & Delivery Group
Children and young people who are looked after have better long-term outcomes	Increase awareness of Corporate Parenting to new public bodies and young people via social media (SOA 10)	Increased Public Information	East Lothian Partnership

# 7 Managing our performance - how well are we doing?

getting it right for all East Lothian children & young people

# Section 7 Managing our performance

how well are we doing?

## How we will report progress on the Plan

The Resilient People Partnership (RPP), through the Children's Strategic Partnership, has overall responsibility for implementation and achievement of the Children and Young People Services Plan.

The Partnerships will:

**Review** evidence and learning about children and young people's services and experiences from:

- Outcomes evidence within the East Lothian profile and six Ward Profiles
- Output reports and improvement actions from Regulated and Partnership Inspections of services for Children and Young People
- Feedback from East Lothian's children and young people through pupil and care experienced children and young people's surveys
- Performance data and trends relating to children and young people's outcomes in respect of education, social care,

health, youth justice and child protection

- Complaints and compliments about children and young people's services
- Engage directly with children and young people to hear 'how it is'

**Plan** to develop services together to better achieve the outcomes sought by:

- Reviewing the Children and Young People's Services Plan annually, asking "How good are we now? How do we know? How good can we be?"
- Reporting performance progress against agreed indicators, quarterly
- Conducting planned shared self evaluation of partnership service delivery using the Care Inspectorate Performance Framework for Children and Young People's Services: "Care Inspectorate Guide to Evaluating Services Using Quality Indicators"
- Developing refreshed priorities and implementation plans on an annual basis

**Do** service delivery together by:

- Agreeing plans and priorities

- Implementing shared delivery mechanisms together
- Reviewing operational arrangements to improve effectiveness of partnership working
- Releasing and moving necessary resources to support delivery of agreed plans and priorities

**Monitor** achievement of plans through:

- Reporting of key performance indicators
- Assessing progress of plans through quarterly action reporting
- Planning and Delivery Group Chairs present progress reports to CSP twice annually
- Challenging progress, especially where it is not on track
- Self-evaluating the Partnerships' leadership of services for children and young people
- Reporting publicly, annually, on the progress of plans and achievements of outcomes

# 8 How we will make sure our plan lives

getting it right for all East Lothian children & young people

# Section 8 How we will make sure our plan lives

Our plan makes promises and commitments to all of East Lothian's children and young people. It shapes the focus and attention of everyone working with children and young people in East Lothian, no matter what their job is or who their employer is.

The partnership views that it takes the whole community to raise and look after our children and young people, and so it is the community who must help achieve the outcomes for our children and young people.

The partnership firmly believes that, if we all work together, with children, young people, families and communities, on achieving the outcomes set out in this plan, we will improve

the wellbeing and life experience of all of East Lothian's children and young people.

To make sure this plan 'lives', the partnership will regularly promote it widely and monitor it closely. Section 9 of the plan describes how we will monitor it.

To promote the plan, the partnership will develop a pack of posters and accompanying information leaflets, designed to make communication of the plan easy for all.

Community briefings about the plan will be provided to all 6 of East Lothian's Area Partnerships and to Parent Councils in schools,

and to any other community groups who would like to hear more about the plan.

More generally, information about the plan and the priority outcomes being worked upon for East Lothian's children and young people will be publicised in local press and radio.

News about services for children and young people will be regularly communicated through partners' websites and specifically through the production of a 6 monthly public newsletter.

To maintain connections with the Children's Strategic Partnership about the plan, and to provide feedback about children's services in East Lothian, e-mails can be posted to: [csp@eastlothian.gov.uk](mailto:csp@eastlothian.gov.uk).

East Lothian Partnership

## 9 More about us

getting it right for all East Lothian children & young people

# Section 9 More about us

This section of our plan gives you a lot more information about how we work together to make progress on the outcomes for all children and young people in East Lothian.

It is presented to you in ‘**More About Us ...**’ sections, helping you to better understand how what we do together to focus on services for children and young people, connects to the wider services and planning arrangements for all of East Lothian’s partnership services for the whole community.

Each section summarises the main points about our arrangements and connections, and

gives you web links to the main public documents available online to make it easy for you to go and look at more in-depth information if you want to.

The ‘**More about us ...**’ sections you can read about are:

- 9.1 More about... East Lothian Partnership
- 9.2 More about... the Children’s Strategic Partnership
- 9.3 More about... involvement by children and young people

9.4 More about... the *East Lothian Plan (Single Outcome Agreement)*

9.5 More about... Getting It Right for Children and Young People In East Lothian

9.6 More about... what we spend in partnership on services for children and young people

9.7 More about... the shift to early intervention

9.8 More about... who are our children and young people

# Section 9 More about us

## Section 9.1 More about.... East Lothian Partnership

**East Lothian Partnership** is East Lothian's community planning partnership. The Partnership brings together East Lothian Council, other public sector bodies (like the NHS) along with the business and third sectors and community representatives to agree and then deliver our priorities for East Lothian. These are set out in [The East Lothian Plan](#) also known as the Single Outcome Agreement.

The Partnership's aim for East Lothian is set out in its 'Statement of Intent':

*"We will work in partnership to build an East Lothian where everyone has the opportunity to lead a fulfilling life and which contributes to a fair and sustainable future."*

East Lothian Partnership is the overarching partnership in East Lothian and is responsible for community planning. Its role is to show strategic and collaborative leadership and drive performance and good governance to achieve

the partnership's aim and shared vision for East Lothian.

Sustainable Economy, Resilient People and Safe and Vibrant Communities are supporting partnerships, which report to East Lothian Partnership. They are responsible for the three objectives of *The East Lothian Plan*. Each supporting partnership is responsible for three or four of the ten high level outcomes. All Partnerships also have to contribute the Plan's headline priority – to reduce inequalities in East Lothian.

**Area Partnerships** have been established for each of East Lothian's ward areas. This aims to ensure a stronger link between communities, area based services, and East Lothian Partnership. Each Area Partnership includes representatives from Community Councils, Tenants groups and Parent Councils as well as other community group and all the Councillors for the multi-member Wards. The essential role

of the Area Partnerships is to agree a strategic level Area Plan based on a shared vision for the area and then to monitor how the Plan is being delivered.

**The Resilient People Partnership** has responsibility for the three Outcomes in The East Lothian Plan that directly relate to people. Two of these outcomes are most relevant to children and young people:

- All of East Lothian's young people are successful learners, confident individuals, effective contributors and responsible citizens
- East Lothian's children have the best start in life and are ready to succeed

Find out more on:

[www.eastlothian.gov.uk/EastLothianPartnership](http://www.eastlothian.gov.uk/EastLothianPartnership)

# Section 9 More about us

**The Children's Strategic Partnership** has been given responsibility for these two outcomes and the *Children and Young People's Service Plan*. This partnership is a multi-agency group involving the Council, Health, Police and the Voluntary Sector. It reports to the Resilient People Partnership. It has set up a number of sub groups who plan (e.g. Early Years) and deliver policies and services that will help to achieve the outcomes.

A key feature of the partnership's approach is that services should be built around people and communities; not professions and organisations.

The Partnership is committed to, and has been developing, ways to engage effectively with local people and communities, to better develop services around their needs.

These include:

- direct involvement as partners in community planning
- effective consultation and engagement mechanisms
- capacity building for staff, community groups and individuals.

# Section 9 More about us

## Section 9.2 More about... The East Lothian Plan (SOA) – Supporting East Lothian’s Children and Young People

### The East Lothian Plan: Single Outcome Agreement (SOA) 2013

*The East Lothian Plan: Single Outcome Agreement (SOA) 2013* is the East Lothian Partnership’s ten-year plan. The plan is based on our understanding of East Lothian; the challenges we face and the strengths and opportunities provided, including:

- The economy and the recession
- Welfare reform
- Population growth
- Inequalities

The evidence used to help the partnership decide on its priorities is set out in some detail in the East Lothian Profile 2013 and six complimentary Ward Profiles (see Appendix).

From this understanding and analysis we developed *The East Lothian Plan*, based on three strategic objectives:

- Sustainable Economy (SE)
- Resilient People (RP)
- Safe and Vibrant Communities (SVC)

The overarching priority of *The East Lothian Plan* is to reduce the inequalities across and within our communities. The Single Outcome Agreement has ten high-level outcomes:

- 1 We have a growing sustainable economy (SE)
- 2 The cycle of poverty is broken (SE)
- 3 We are able to adapt to climate change and reduced finite natural resources (SE)
- 4 East Lothian’s young people are successful learners, confident individuals, effective contributors and responsible citizens (RP)
- 5 East Lothian’s children have the best start in life and are ready to succeed (RP)
- 6 In East Lothian we have healthier, more active and independent lives (RP)
- 7 East Lothian is an even safer place (SVC)

- 8 East Lothian has high quality natural environments (SVC)
- 9 Everyone in East Lothian has access to quality sustainable housing (SVC)
- 10 We have stronger, more resilient, supportive, influential and inclusive communities (SVC).

These outcomes have a small number of contributory outcomes that highlight the key stages towards meeting each outcome and that provide a clear indication of the difference the *East Lothian Plan* will make. Progress towards achieving the outcomes is measured by key indicators with three and ten-year targets.

All the outcomes and the Single Outcome Agreement as a whole are relevant to children and young people. But two of the 10 high level outcomes are specific to children and young people:

- All of East Lothian’s young people are successful learners, confident individuals, effective contributors and responsible citizens

# Section 9 More about us

- East Lothian's children have the best start in life and are ready to succeed

Recognising the challenges ahead for our communities and our services, the East Lothian Partnership is committed to transforming our services so that they build in prevention and early intervention. Taking this preventative approach, by moving from a model of public services that focus on crisis intervention (providing services to put people and communities together again after things have failed) to a model that concentrates on preventing failure, lies at the core of the Single Outcome Agreement.

Partners are committed to transforming the way we deliver our services collectively by shifting resources – *people, facilities, funds* – towards prevention and early intervention and embedding this approach within our services. This shift in resources is the key to reducing inequalities whilst building community resilience and enhancing the life chances and opportunities for people across our communities.

The priorities outlined in this new plan contribute to meeting our overarching priority outlined in our *Single Outcome Agreement 2013 – 2023*; to reduce inequalities both within and between our communities.

Previous Integrated Children's Services Plans have concentrated on the three or four high level outcomes directly related to children and young people, however, we now recognise that all ten outcomes have a direct or indirect impact on the wellbeing of our children and young people, therefore we will evidence how our partnership approach contributes to meeting these outcomes.

The relevant SOA outcomes are linked in our children and young people's planning framework in part. As a Partnership we will continue to use Getting it Right for Every Child (GIRFEC) Wellbeing Indicators - *safe, healthy, active, nurtured, achieving, respected, responsible and included* - to inform our Planning Framework and to measure our progress against the stated actions.

# Section 9 More about us

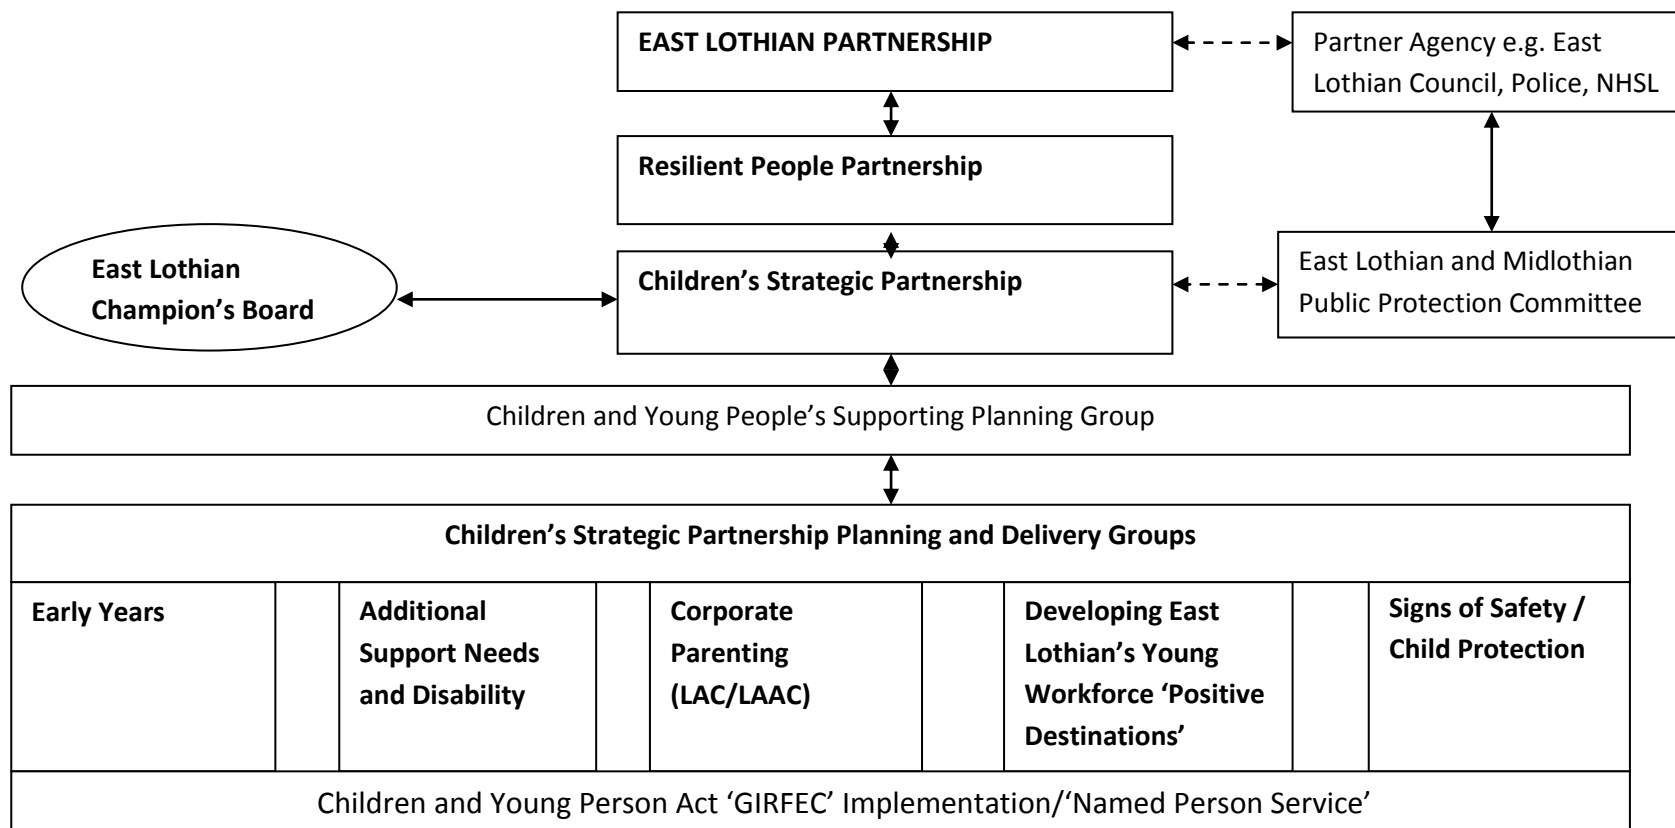

## Section 9.3 More about...the Children's Strategic Partnership

Our Children's Strategic Partnership meets on a monthly basis and includes strategic leadership representation of children's services from:

- East Lothian Council
- NHS Lothian

- East Lothian Health & Social Care Partnership
- Police Scotland
- STRIVE East Lothian Third sector Interface Agency
- Queen Margaret University
- Edinburgh College

The Children's Strategic Partnership reports to the East Lothian Partnership through the Resilient People Partnership. This diagram shows how the Children's Strategic Partnership connects to the East Lothian partnership.

# Section 9 More about us

The Children's Strategic Partnership provides strategic leadership and direction for services to children and young people in East Lothian with responsibility for overseeing effective delivery and monitoring of this Plan and must:

- ensure that the East Lothian Partnership has a good understanding of the needs of children and young people in East Lothian in order to ensure that services are delivered to meet those needs
- provide active leadership, promoting a clear strategic direction of integrated children's services
- set the direction for children's services in East Lothian and to subsequently approve action plans from the thematic planning groups and to support them to deliver their tasks, removing barriers and holding members to account where necessary

- oversee the monitoring and reporting of the *Children and Young People's Services Plan* and publication of annual evaluation reviews
- facilitate change across children's services to further enable integrated working supporting implementation of Getting It Right For Every Child
- co-ordinate resource allocation and new partnership funding bids
- enable effective engagement and consultation with children, young people and families in planning, service delivery and evaluation
- ensure front line staff and relevant stakeholders are aware, involved and updated on the work of the partnership
- report to the public annually on progress being made towards achievement of the Plan and the

wellbeing outcomes of all East Lothian's children and young people.

Six multi-agency planning and delivery groups have been formed to take forward the work to achieve the priorities outlined in this plan and to report on progress to the Children's Strategic Partnership. These are the groups:

- Early Years
- Additional Support Needs/Disability
- Looked After/Looked After and Accommodated/Corporate Parenting
- Developing East Lothian's Young Workforce - Positive Destinations
- Child Protection – Signs of Safety
- Children & Young Person Act GIRFEC Implementation/'Named Person Service'.

# Section 9 More about us

The current membership of the Children’s Strategic Partnership includes representation from:

<p>Head of Children’s Wellbeing, Health &amp; Social Care Partnership</p> <p>Head of Education, ELC</p> <p>Director of Health &amp; Social Care Partnership</p> <p>Head of Resources, ELC</p> <p>Head of Communities &amp; Partnerships ELC</p> <p>Children’s Health Commissioner, NHS Lothian</p> <p>Head of Adult Service, Health and Social Care Partnership</p> <p>Public Health Consultant, NHS Lothian</p> <p>Detective Chief Inspector, J Division, POLICE Scotland</p>	<p>STRIVE ,Children’s 3<sup>rd</sup> Sector Partner</p> <p>Head of College Communities, Edinburgh College</p> <p>Head of Outreach and Community Engagement, Queen Margaret University</p> <p>Chair Supporting Planning Officers Group</p> <p>Chair GIRFEC/Named Person Service Group</p> <p>Community Partnership Policy Adviser, ELC</p> <p>Children’s Reporter, SCRA</p> <p>Chair, East Lothian and Midlothian Public Protection Committee</p> <p>Chairs of Planning and Delivery Groups and Supporting Planning Group</p>

Contact can be made with the Children’s Strategic Partnership by e-mailing: [csp@eastlothian.gov.uk](mailto:csp@eastlothian.gov.uk) or telephoning the Clerk to the Partnership, Lynda Ballantyne on 01620 827633.

## Children’s Strategic Partnership Planning and Delivery Groups

The Children’s Strategic Partnership is supported by a Supporting Planning Group

comprised of officers from across agencies intent on implementing shared strategic priority and commitment through our joint service planning and delivery. Each planning and delivery group is supported by a member of the Supporting Planning Group.

Each of the planning and delivery groups is chaired by a Senior Officer from a partnership service. Each group has developed a workplan for their area of responsibility. The Chair of each group present progress on their area of

responsibility to the Children’s Strategic Partnership twice per year, creating opportunity to highlight any specific challenges that the Partnership can assist with.

The planning and delivery groups are responsible for the delivery of integrated services and for improvement planning, young people’s involvement, supporting prevention and early intervention, self-evaluation and performance reporting within their area of thematic service responsibility.

# Section 9 More about us

## Section 9.4.... More about ...involvement by children and young people

The East Lothian Community Planning Partnership values the engagement and participation of children, young people and their families in the planning and delivery of all services for children and young people.

In 2015, the Children's Strategic Partnership approved the 'Golden Rules for Participation' <http://www.sccyp.org.uk/education/golden-rules>. These golden rules have been developed by the Scotland Commissioner for Children and Young Children and Young people through consultation with children and young people across Scotland. Every golden rule has a list of things to consider about children and young people's participation. Each children and young people's planning and delivery group embeds these golden rules by demonstrating a commitment to the following areas:

- *Promote and respect the rights of children and young people as laid out on the UNCRC support the work of the*

*Scottish Commission for the Rights of Children and Young people*

- *Positive participation and consultation activity for children, young people and their families in the development, monitoring and review of plans*
- *Take account of wider participation activity that takes place across the local partnerships*
- *Keep language simple and accessible to all*
- *Record and report back to children, young people and their families what has changed.*

*The Children and Young People's Service Plan 2016-2019 has been informed by the views of children, young people and the families through a range of different methods including:*

- *Representatives from user groups including the Care-Experienced Young*

*People's Champion's Board and Family Led Information Point sit on a number of multi agency planning groups*

- *Champion's Board Priorities have been incorporated into the Corporate Parenting Planning and Delivery Group Action Plan*
- *Reports from surveys including Viewpoint and the Student Evaluation of Experience Survey are reported back to relevant planning groups and the Children's Strategic Partnership*
- *Family Led Information Point (parent) members fed in three priority areas of improvement for children and young people with additional support needs in to the Additional Support Needs/Disability Planning and Delivery Group Action Plan.*
- *Young people helped design a young person friendly consultation tool about*

# Section 9 More about us

the *Children and Young People's Plan 2016-2019*.

The views of children, young people and their families informed the evidence base behind improvement actions within the *Children's and Young People's Plan 2016 - 2019*. There is a commitment shared by all partners to involve children, young people and their families in ongoing self evaluation, monitoring and review of the plan.

In East Lothian, there are a range of mechanisms that support engagement and participation of children and young people and their families. These include:

- **Pupil Councils** - are established in all Secondary Schools. These councils consider aspects of how the school is run and how it engages with its community and with a number of similar forums and consultation processes in primary schools.
- **Youth Councils** - representing the six secondary schools, feeding into

consultations linked to Community Planning and Area Partnerships.

- **Youth e- Panel** - is for young people aged 14-25. All young people that sign up to the e- panel are emailed a link to regular surveys where you can tell us your thoughts on a whole range of issues including your community, the environment, education, employment, health and wellbeing, culture, sports and leisure, transport. The information gathered through the Youth E-Panel will be used to help plan and improve services relevant to young people.
- **Scottish Youth Parliament** - three Scottish youth parliament members are elected bi-annually to represent East Lothian. Their manifesto consultation should be linked to other local youth initiatives and priorities. The next SYP campaign 2016 will focus on Mental Health.
- **Who Cares? Scotland** - provide independent advocacy and children's

rights support to children and young people that are looked after and represent their views at an individual and strategic level. The Who Cares? Participation Worker supports the involvement of care experienced young people in a range of local and national groups and events.

- **East Lothian Champion's Board** - The East Lothian Champions Board was launched in May 2015. It provides young people with care experience with a platform to have their voice heard. The Board is made up of three groups. The participation group is made of young people. The support group is made up of staff that support the young people in every way they can. The ambassador's group is made up of Heads of Services and elected members. The young people have identified 7 priorities for change.
- **Viewpoint** - Children's Wellbeing uses Viewpoint (Computer Assisted

# Section 9 More about us

Interviewing Technology) as a tool to gain the views of looked after children and young people. Results are used to inform their individual plans and reviews as well as multi agency service planning.

- **Student Evaluation of Experience Survey** - The Education Department undertakes a pupil evaluation survey on an annual basis. The survey asks young people in Primary 6 and Secondary 2 for their views on a wide range of subjects, including community safety, participation, child protection and environmental issues. The findings are presented to Education Committee, and then to all elected members and policy-makers across the East Lothian partnership and informs service planning.
- **Family Led Information Point** - Family Led Information Point (FLIP) is a forum for parents and carers who have a child/relative with additional support

needs. FLIP meets once a month and has an active Face book page where parents can access current information about support services both locally and nationally. Parents also share their views on a wide range of services

including education, health, sports and leisure.

- **Parent Councils** -Parents and carers have been actively involved in the lives of their school, particularly since the implementation of the Parental Involvement Act in 2008. The council has been proactive in working with parents to empower them, and parent councils have a key role to play in many school decision-making processes
- **Recruitment and Selection** -East Lothian Council has a commitment to involve young people in the recruitment and selection of senior staff in East Lothian, (ELC recruitment good practice guide).

- **Child & Adolescent Mental Health Service (CAMHS)** - CAMHS Team in East Lothian uses user feedback questionnaires and our Lothian wide “tier 4” service users are supported both by individual and collective advocacy services. Focus groups of **service users are used as part of service review and development.**
- **Listen More Assume Less** - a six monthly report that shares the views and experiences of children and young people and their families. The report is shared with key partners, professionals and children, young people and their families. The report includes a section ‘You said, we did, so what’. This section is a way of telling children, young people and their families what outcomes develop from their engagement.

# Section 9 More about us

**Social Media** - East Lothian is making better use of social media as a tool to engage with children, young people and their families. Facebook and twitter are the popular forums where young people can access news and information and share their views. In addition the Young Scot website and smart cards are a key area for information where young people can access discounts and rewards.

# Section 9 More about us

## Section 9.5 More about ... Getting It Right (GIRFEC) for every child and young person in East Lothian: Where are we now?

Getting It Right for Every Child (GIRFEC) is an ambition of the Scottish Government which we share in East Lothian. In order to get it right for every child, the Government said some years ago that **cultures, processes** and **practice** needed to change in organisations that support children and young people.

The Scottish Government thought things were not moving fast enough across the whole of Scotland so they passed an Act of Parliament to ensure some things changed. The Children and Young People (Scotland) Act 2014 makes it law from August 2016 for every child to have a Named Person to help co-ordinate any support they might need, from birth to the age of 18. This will generally be the child's midwife and then health visitor pre-school and then a Head Teacher, Depute Head Teacher or Guidance Teacher through Primary School and Secondary School years. It also sets out that when the wellbeing of any child is worrying people, they

should look at the eight different areas that make up wellbeing: whether the child is safe, healthy, achieving, nurtured, active, respected, responsible and included. These are called the "wellbeing indicators". Any plan made for the child should use these eight headings.

In East Lothian, we have been using the eight wellbeing indicators in all our plans where more than one agency is working alongside the family, for at least five years. We have also had a system to co-ordinate planning for individual children and young people for well over a decade, which involves families and professionals together. We have been working on changing **culture** for several years, embedding a real focus on 'wellbeing' across all of our services and work with children and young people. More recently we have introduced a particular way of working in child protection cases, called the Signs of Safety approach. This concentrates on the 'Safe' wellbeing indicator, with a focus on preparing

families much more thoroughly for meetings so they are able to take part confidently. The strengths and dangers in a family situation are shared in simple language with everyone looking to build on the small signs of safety that can be found in the situation. The family use their own support networks to help with many of the actions when the plan is prepared together. This approach started in Child Protection work but is spreading to other areas.

We are developing our Named Person Service. We appointed GIRFEC Lead Officers for both Health and Education, with a responsibility to work together to develop the local East Lothian Named Person Service and supports. Consultations with children, young people, parents and carers, and professionals are informing our work. The GIRFEC Lead Officers are developing training and guidance so that all

## Section 9 More about us

staff will be ready to launch the Named Person Service by August 2016. Information about the Named Person Service will be readily available to all children, young people, parents, carers and professionals e.g. in School Handbooks, on Council/NHSLothian websites etc.

Our ***processes*** are being reviewed again to make sure we work together in a co-ordinated way across services with families, identifying wellbeing concerns, assessing needs, and agreeing actions and outcomes. We want streamlined processes for planning, assessment and decision-making which mean that families

do not have to attend numerous meetings. We have been shifting ***practice*** so that families get help when they need it, to prevent things getting worse. As part of this we changed our parenting programmes to target parents of children under age five.

# Section 9 More about us

## Section 9.6 More about ... what we spend In partnership on children and young people services

All services involved in supporting children, young people and families have their own budgets. Our collective current 'spend' on services for children and young people is not easy to quantify as many services available to children, young people and families are also available to the entire East Lothian population e.g. Leisure Facilities, Community Facilities, Library Services, Police Services, etc.

To give a sense of the scale of current financial expenditure, where it is possible to do so, key partners have identified their current budget allocation specific to services identified as being solely for children, young people and families in East Lothian.

Cumulatively, key partners attribute some £105,251,509 to the provision of services for East Lothian's children and young people.

**East Lothian Third Sector:** All charities registered and delivering services in East Lothian are funded by a variety of sources, with most being dependent on more than one source e.g. Local Authority, Scottish Government, grant making bodies, trust funds, endowments, fundraising, service charges, membership fees & donations/gift aid etc. Moving forward some will generate income from Self Directed Support as well. The current financial investment in the East Lothian Third Sector is:

After School Clubs	1,075,886
Family Support	596,993
Playgroups & Nurseries	273,344
Special Needs	342,116
Sports & Leisure	431,570
Uniformed Organisations	248,242

Youth Projects	679,812
Other support	925,217
<u>Total</u>	<u>£4,324,938</u>

**NHS Lothian - Health Visiting and School Nursing Service:** Health Visiting and School Nursing Services are a joint service operating across East Lothian and Midlothian areas. In proportionate terms, relative to the staffing allocations across each geographic area, the current budgetary allocation to East Lothian is:

Health Visiting	1,085,743
School Nursing (Joint ELC/MLC)	372,456
<u>Total</u>	<u>£1,458,199</u>

Other NHS Lothian services for child and maternal health are funded pan-Lothian and are not proportionately attributed to East Lothian children and young people.

# Section 9 More about us

**East Lothian Council:** Services for children, young people and families are not specifically budgeted for across all local authority services, with many services being open to all local residents irrespective of age. The proportion of the total council budget allocated to children and young people's services is approximately 49%.

Those specific services with budgets wholly attributed to working with children, young people and families are as follows:

Children's Wellbeing	12,576,000
Education Preschool and Childcare	6,387,270
Education Additional Support for Learning	7,876,000
Primary Schools	32,485,730
Secondary Schools	36,512,000
School Support Services	2,704,000
Healthy Living Active Schools	466,100

Total £99,007,100

**Police Scotland:** Police Scotland receives funding of £500,000 direct from East Lothian Council. This funding supports the delivery of local policing and community safety priorities determined by Police Scotland and local community partners. It is not directly attributed to Police Scotland's work with children and young people, but does support

the whole community in which our children and young people live.

**Edinburgh College:** expenditure attributed to East Lothian's young people presenting as students at Edinburgh College, by age group, is:

Under 15	123,987
16-19	958,884

20-24 378,401

Total £1,461,272

# Section 9 More about us

## Section 9.7 More about ... our partnership's shift to prevention and early intervention

Transforming the way in which we deliver services to the community of East Lothian requires a significant culture change for all partners. We believe that this is the key to making a step change and requires all partners to embed the principles of early intervention and prevention across both their policies and practice. The *East Lothian Plan (Single Outcome Agreement)* is key in influencing the activities of all community planning partners.

People in East Lothian have been living through a period of financial austerity but also one of major demographic change. This has created a situation with hugely increased demand for service without an equivalent increase in service investment. Recognising this imbalance, East Lothian Partnership is looking to focus on prevention: tackling poverty, educational attainment and health inequality.

The *Children and Young People's Services Plan* will be delivered through a period of considerable change and one that will become increasingly challenging. Research is clearly telling us that we need to intervene earlier with many families in order to prevent the problems they experience escalating further. It is widely accepted that late intervention incurs high

costs not only in relation to financial value and reducing budgets, but also in high 'life costs' for children and families as these generally translate into poor outcomes especially in the longer term. At the same time, due to the demographic pressure, we are also experiencing a year on year increase in the number of vulnerable children and young people whom we require to respond to and support.

The Scottish Government's legislative and policy frameworks are driving forward the need for all agencies to jointly commit to prioritising investment in prevention and early intervention especially during the early years of children's lives e.g. the Early Years Collaborative.

Partners locally have begun to consider the findings of the Christie Commission on the Future Delivery of Public Services and how the move towards *prevention* and *place* can be delivered.

In East Lothian progress with responding to this agenda is evident in the Musselburgh Total Place: Family Focus project: this sees all partners review their work in supporting

families with a view to bringing forward local cross-partner, jointly resourced initiatives to target work with those families facing greatest challenge.

In addition, working in partnership to prioritise and refocus existing partnership resources is intended to target prevention and early intervention. Practical examples of this can be evidenced through the planned implementation of the Family Nurse Partnership approach to working with young vulnerable parents and the introduction of the Psychology of Parenting Programme with parents of children aged under five.

Working together to support communities create a better environment for their children and young people to grow up within, the East Lothian Partnership has embedded responsibility for community resilience and capacity building into the work of the 6 Local Area Partnerships. It is for this reason that we have embedded the Support from the Start community based network of supports for parents, carers and professionals into the Area Partnership arrangements. This brings the focus on developing local responses to meet

# Section 9 More about us

the early health, education and wellbeing needs of children pre-birth to age eight into the heart of each local community.

The Musselburgh Area Partnership has for these reasons developed and introduced, in the 2015/16 academic year an 'Attendance Matters' community based initiative and competition to drive up education attendance levels at nursery, primary and secondary schools; the target audience being parents themselves.

The Pinkie St Peters 'Resilience Project' is another example of community ownership of the need to build capacity and resilience from within the hearts of communities themselves.

Community partners and communities, together, have faced reductions in public sector funding over recent years and the likelihood of further restrictions, will present additional challenges in how we secure this shift to a prevention based approach, simultaneously

meeting the considerable needs of the increasingly high levels of vulnerable families that we encounter. Nevertheless all partners are enthusiastically committed to taking up the challenge of changing our current approach to prevention and early intervention and will continue to work closely together to align our resources to achieving the outcomes that have been agreed.

# Section 9 More about us

## Section 9.8 More about....our children and young people

This document was created using information existing in the East Lothian and Ward 'by Numbers' statistical profiles to help the Children's Strategic Partnership understand and analyse the story of young people in East Lothian.

[East Lothian by Numbers: Children and Young People](#) provides a statistical overview of the younger population in East Lothian. It provides an analysis of a range of issues that affect the quality of life of children and young adults living in East Lothian.

It is structured under eight health and wellbeing indicators and an introductory demographics section. Each indicator – safe, healthy, active, nurtured, achieving, respected, responsible, included – has been populated with a range of information designed to measure and explain health and wellbeing in East Lothian.
