

## Letham Mains Consultation FAQs

**Q: Why are we not extending into the area west of the proposed catchment?**

A: The school campus site at Letham Mains is not of a sufficient size to include a larger catchment

**Q: Why are we not including the new houses at Gateside and those to the south and north of the development?**

A: When Letham Mains catchment was originally established and agreed at Council in 2011, the land north of Letham Mains (at Gateside) was at that point allocated for Business and Industry use and was not included as part of the catchment establishment consultation. Since then, planning consent has been granted for mixed use including housing. Again, as referred to above, the school campus site is not of a sufficient size to include a larger catchment than what is currently being proposed.
