| 4 Monitoring and Assessment for LDP Review | 90 |

1. INTRODUCTION

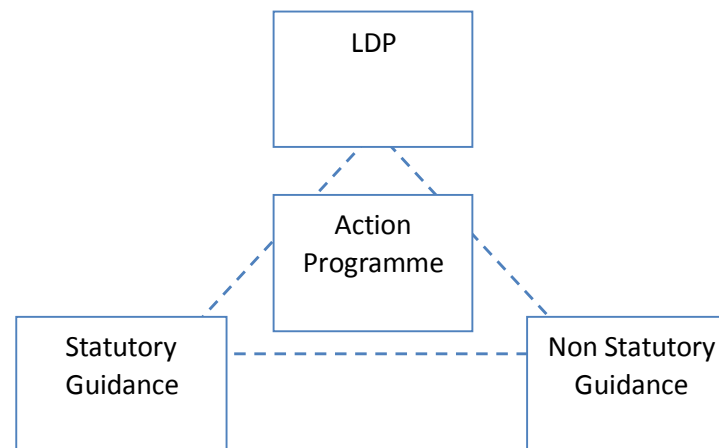

1.1 The East Lothian Local Development Plan (LDP) is an important land use document that sets out Council's planning strategy and policies to guide and manage future development within East Lothian. The LDP sets out a long term vision for the future growth of East Lothian, identifying where and how development requirements can be delivered. It is a site specific plan that contains proposals that show where the Council wants to stimulate development as well as policies it will use to manage development in East Lothian, providing certainty to investors and communities.

1.2 This Action Programme has been prepared to accompany the LDP and sets out how the objectives, strategy and policies within the LDP can be successfully implemented and delivered along with the various actions and partnerships that will be required to support and achieve implementation. In accordance with Section 21 of the Planning etc. (Scotland) Act 2006 and Regulation 26, the Action Programme sets out:

- A list of actions to deliver each of plan's policies and proposals
- The name of the person (organisation) who is to carry out the action
- The timescale for carrying out each action

1.3 The actions included are not just those to be carried out by the Planning Authority, but also by key stakeholders and agencies. Delivery of LDP policies and proposals is dependent on a wide range of factors, including actions contained in other plans, programmes and strategies, economic conditions and other factors beyond the control of the LDP. As a result, the Action Programme is intended to give a broad indication of the expected timescales for development rather than a precise programme of delivery. It is a live document and is flexible in response to change.

Action Programme

Purpose of the action programme

1.4 The Local Development Plan (LDP) sets out how places in East Lothian will change and develop into the future. This Action Programme supports the LDP by outlining how the policies and proposals in the LDP will be delivered by East Lothian Council and other stakeholders. It sets out how the Council proposes to implement the LDP, to provide a focus on delivery and to co-ordinate development and infrastructure provision. Setting out this programme of the multiple actions required to deliver the plan will assist in more co-ordinated and efficient implementation. This will in turn contribute to Council's aim of creating a prosperous, safe and sustainable East Lothian that will allow local people and communities to flourish, as set out in the Council Plan 2017-2022.

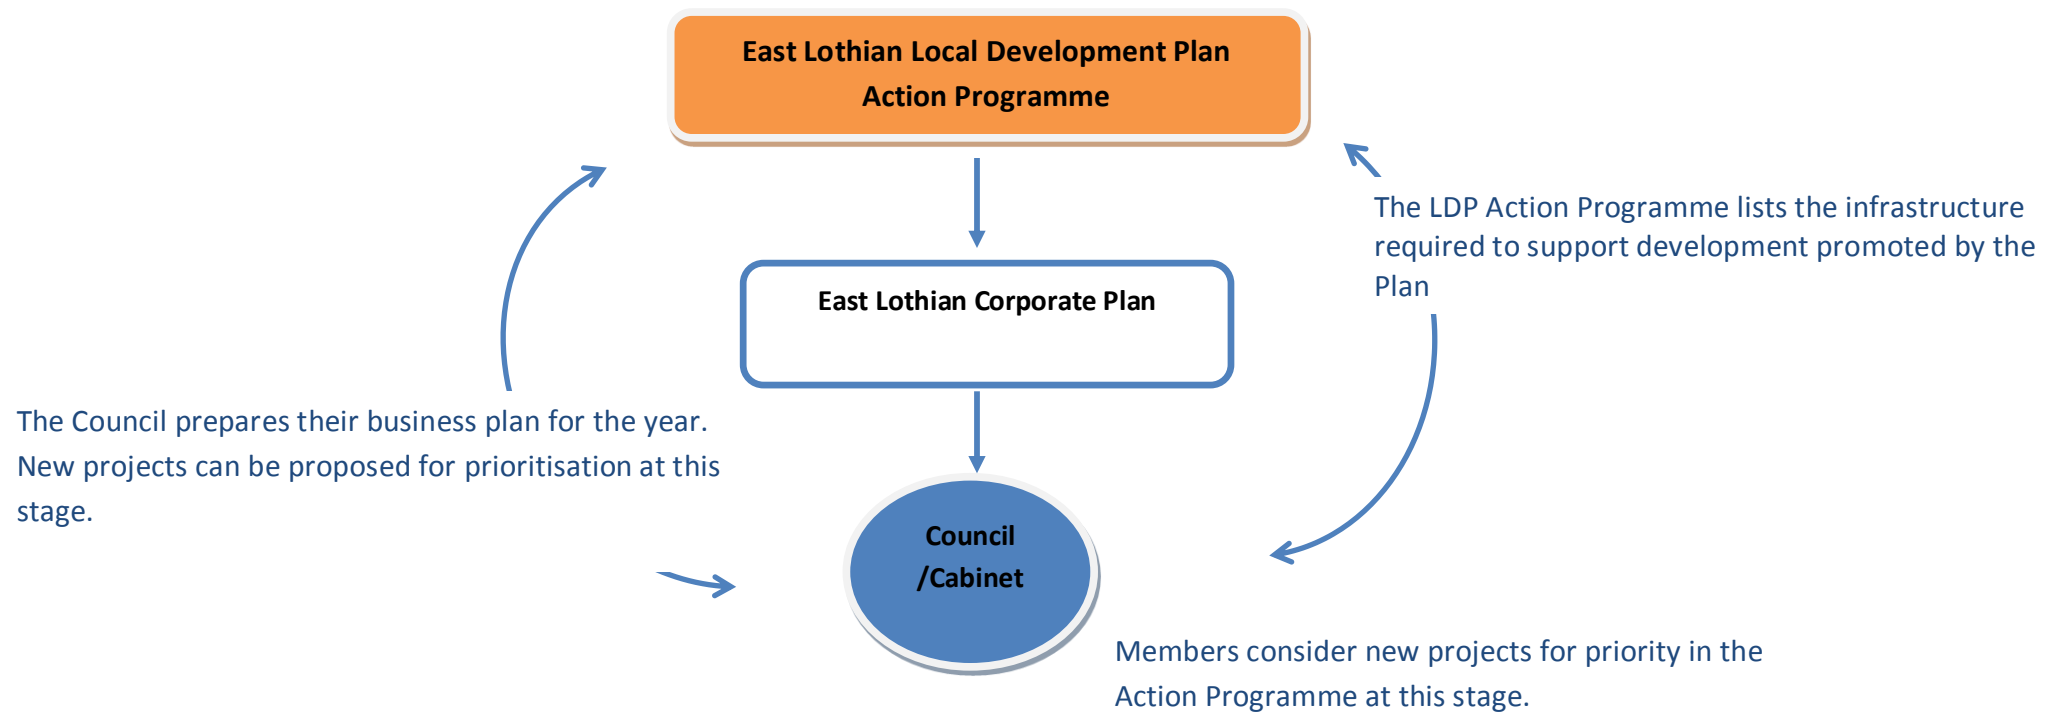

1.5 Within the LDP, there are a number of policies which set the strategic direction of the Plan and this influences the location of new development. This Action Programme will reflect the continuous process of delivering development and will prioritise key areas of action that will be required to deliver the vision and objectives of the Plan. There is a close connection with the content of the Action Programme and the further information and guidance in the Developer Contributions Framework Supplementary Guidance. This is particularly in relation to infrastructure provision and associated costs and timing for delivery.

1.6 The Action Programme has been prepared in parallel with the LDP to increase confidence that the plan is deliverable. It is akin to a high level 'project plan' that will be monitored and used regularly to instigate actions to implement the LDP. It is important that the Action Programme remains current and up-to-date and it will be reviewed every two years. The review of the Action Programme will provide an opportunity to identify progress made in relation to delivery of policies and proposals, and to consider additional future actions that may be required. It is also intended to serve as a useful means of keeping stakeholders informed on LDP delivery. The Council will engage with all relevant parties as part of these reviews.

How will the Action Programme be used?

1.7 The Action Programme and the Plan itself do not work in isolation. They are part of a concerted action involving internal departments and external agencies. They therefore strongly align with a number of key corporate policy statements of the Council including the Single Outcome Agreement, Local Housing Strategy and Developer Contributions Framework Supplementary Guidance. This makes the Local Development Plan an important corporate document whose successful implementation will require cross departmental action.

FIGURE 1 - Governance

Responsibilities

1.8 The LDP sets out the policies and proposals to be implemented through decision making. This Action Programme does not look to repeat that information but instead collates them so that an overview of the plan's progress can be established and progress on the actions can be monitored. This will enable the Governance arrangements that have been put in place to continue the momentum of plan delivery.

1.9 Each policy and proposal will identify who the key agents of action are, how they will deliver this through the identification of key actions, and when they will do it. It is intended that this Action Programme will be a live working document, and subject to review meetings that will be held regularly. Progress on achieving the key stages of each project will be reported to Senior Officers via Team Meetings and then reported to Cabinet every two years or more frequently should the Council deem necessary. The lead agency noted in the Action Programme will be responsible for the implementation of the policies and proposals to which they are assigned. They will also have the responsibility for regular reporting and for monitoring and updating of the Action Programme.

Delivery

1.10 It must be recognised that delivery of development is not always straightforward and a number of internal and external factors can contribute to delay or slippage. The Action Programme needs to be flexible in response to change, proposing alternative solutions when needed (so long as there are consistent with the Development Plan) and assessing the impact of any change on remaining proposals as many are inter-linked.

1.11 It is recognised that confidence in delivery of the Local Development Plan is important to the Council, its local communities and businesses. The governance arrangements will be put in place to ensure progress of the plan's implementation is sufficiently monitored and that actions are instigated by the relevant organisations in an appropriate timescale. The Action Programme will be formally reviewed and published on a biennially basis or sooner should the Council deem necessary. On publication, it will be available on-line, at the Council office in Haddington and copies will be sent to Scottish Ministers.

Format of the Action Programme

1.12 The intention is that this Action Programme will be easy to use and interpret. The Local Development Plan contains a set of policies and proposals. **A policy** is typically thought of as a rule to guide decisions. It captures the Council's broad intentions. **A proposal** is usually site specific and states a plan to do something. Within the Local Development Plan and within this Action Programme, site specific proposals are identified and their references are identical in both documents. Each policy describes the implementation timescale as ongoing and each proposal describes the implementation timescale as:

Short term (0-5 years),

Medium term (5-10years) or

Long term (10 years or over).

1.13 The Action Programme will look at the strategic policies and proposals and the identified actions needed to implement the proposals. To assist with the delivery of development on the ground, the Council has prepared Supplementary Guidance on Developer Contributions. Contributions will be utilised to implement the broad strategy of the Plan and specific proposals. The actions based on the LDP are structured as follows:

- **Priority Actions – Key Strategic Projects (Section 2 of the Action Programme)**

These are actions that must be implemented in the short term to assist with the timely delivery of the LDP. They are broken into three Priority Actions;

- 1) Adoption of Local Development Plan Supplementary Guidance and Supplementary Planning Guidance;
- 2) Delivery of Specific Proposals relating to Major Infrastructure;
- 3) Delivery of Specific Proposals relating to Education
- 4) Delivery of Specific Proposals relating Sport and Leisure

- **LDP Guidance – Proposals & Policies (Section 3 of the Action Programme)**

This section sets out the policies and proposals of the plan and stipulates any actions associated with them.

- LDP non Statutory Guidance
- LDP Policies and Proposals

- **Monitoring and Assessment for LDP Review (Section 4 of the Action Programme)**

2 PRIORITY ACTIONS

2.1 This section sets out actions that must be taken to progress with Key Strategic Projects. On adoption of the LDP, these actions will be a priority as they are essential to enable implementation of other dependant actions across the authority area. In the interests of delivery, some actions will be progressed as the LDP is emerging. These actions will be led by ELC and require joint working across the authority and in partnership with others, including Key Agencies, Consultation Authorities and landowners and developers. They will be key to the initial phase of plan delivery.

Priority Action 1: Adoption of Local Development Plan Statutory and Non Statutory Guidance

| PRIORITY ACTION 1 ADOPTION OF LOCAL DEVELOPMENT PLAN STATUTORY AND NON STATUTORY GUIDANCE | | | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|------------------------------------------|-------------------------|-------------------------------------------------------------------|------------------------------------------------------------|
| Policy | Joint Working | Dependant Sites Allocation / Application | Timing & Next Steps | Time: Short (1-5 yrs) Medium (5-10 yrs) Long (10-15 yrs) | Progress |
| STATUTORY GUIDANCE | | | | | |
| <i>Developer Contributions Framework Supplementary Guidance</i> | | | | | |
| | ELC (lead)/ Developers | All in East Lothian | Adoption of SG mid 2018 | | Draft DCF SG approved for consultation in June – July 2018 |
| The Developer Contributions SG will be produced to support the policies in the East Lothian Local Development Plan, including Policy DEL1: Infrastructure and Facility Provision which signposts the production of the SG. It sets out the requirements for developer contributions. The Supplementary Guidance links to the LDP and Action Programme and provides further detail on the policy approach, the types and scales of development to which it will apply and mechanisms for delivery. This Supplementary Guidance deals primarily with matters of a financial nature. It sets out the Council's proposed future section 75 planning obligations. | | | | | |

| PRIORITY ACTION 1 ADOPTION OF LOCAL DEVELOPMENT PLAN STATUTORY AND NON STATUTORY GUIDANCE | | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|--------------------------|-------------------------------------------------------------------|---------------------------------------------------------|
| Policy | Joint Working | Dependant Sites Allocation / Application | Timing & Next Steps | Time: Short (1-5 yrs) Medium (5-10 yrs) Long (10-15 yrs) | Progress |
| NON STATUTORY GUIDANCE | | | | | |
| <i>Development Briefs Supplementary Planning Guidance</i> | | | | | |
| Policies: DP9 | ELC (lead)/ Developers/ Queen Margaret University (with regard to MH1) | See Clusters below | Adoption of SPG mid 2018 | | Draft SPG approved for consultation in June – July 2018 |
| The briefs will be adopted as Supplementary Planning Guidance and will form a non-statutory part of the East Lothian Local Development Plan. The development briefs will guide development of the specific housing and employment sites throughout East Lothian in line with the Local Development Plan policies and will cover land use and indicative layout and design. | | | | | |
| Musselburgh Cluster | Policy DP9 | | | | |

| PRIORITY ACTION 1 ADOPTION OF LOCAL DEVELOPMENT PLAN STATUTORY AND NON STATUTORY GUIDANCE | | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|-------------------------------------------------|------------------------------------|--------------------------------------------------------------------------|-----------------|
| Policy | Joint Working | Dependant Sites Allocation / Application | Timing & Next Steps | Time: Short (1-5 yrs) Medium (5-10 yrs) Long (10-15 yrs) | Progress |
| <i>Housing Quota and Tenure Mix Supplementary Planning Guidance</i> | | | | | |
| Policies HOU3, HOU4 | ELC/Homes for Life/Developers | All in East Lothian | Adoption of SPG Autumn 2018 | | |
| <p>The SPG will allow developers and landowners throughout East Lothian to assess the implications of providing affordable housing at an early stage, setting out expectations, including any financial obligations, for the delivery of affordable housing as part of market housing sites. It will also specify affordable housing tenure mix that will be expected as part of market housing proposals, including the requirement for social rent as well as targets for the proportional split between other acceptable tenures and how the tenure models should be delivered. The location and size of the site, the form of development to be delivered and the availability of subsidy will help inform the mix of tenures to be provided.</p> <p>The SPG will commit to a review of the commuted sum value at least every 2 years, although the guidance itself will not be reviewed this frequently. It will be used in the determination of planning applications within the East Lothian area, but does not set a framework for the scale or type of development.</p> | | | | | |

Priority Action 2: Major Infrastructure Proposals

2.3 This table sets out the major infrastructure interventions needed to deliver key policies and proposals of the LDP. Additional information is contained in the Developer Contributions Framework SG.

| PRIORITY ACTION 2 MAJOR INFRASTRUCTURE PROPOSALS | | | | | | |
|------------------------------------------------------------------------|--------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|----------------------------------|------------------------------|----------|
| Action | Lead & Joint Working | Activity | Status | Time: Short Medium Long | Indicative Cost ⁱ | Progress |
| PROP T3 Segregated Active Travel Corridor | | | | | | |
| To develop a new segregated active travel corridor within East Lothian | ELC (lead)/ SEStran (lead)/ Sustrans/Developers | Actively pursue the implementation of the proposed Segregated Active Travel Corridor. Improved travel accessibility for pedestrians and cyclists to local facilities as well as public transport services for a large number of existing | Management and monitoring of Planning applications through the development management process. | | £23,400,000 | |

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------|----------------------------------------------------------------|------------------------------------------------------------------------------------------------|----------------------------------|---------------------------------|----------|
| Relevant proposals required to provide, or contribute towards, improvements at: <ul style="list-style-type: none"> Dualling of A198 from Bankton northern roundabout, tapering back to single before Meadowmill roundabout | ELC (lead)/ Transport Scotland | | | | £1,044,110 | |
| PROP T20 Transport related Air Quality Measures: Relocation of Bus Stops | | | | | | |
| The Council will investigate the relocation of bus stops within the Musselburgh Air Quality Management Area to mitigate existing air quality issues and will monitor and manage the situation as required to ensure air quality is maintained to an acceptable standard in association with new development. | ELC (lead)/ Developers/ Bus Operators | Actively pursue the implementation of the projects identified. | Management and monitoring of Planning applications through the development management process. | | | |

| Action | Lead & Joint Working | Activity | Status | Time: Short Medium Long | Indicative Cost ⁱ | Progress |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|---------------------------------|----------|
| PROP T21 Musselburgh Urban Traffic Control System | | | | | | |
| Relevant proposals will be required to contribute to the provision of an Urban Traffic Control system and the signalisation of the junction at the A199 and New Street, the A199 Linkfield Road and Millhill, and Inveresk Road and Newbigging junctions to an adoptable standard to manage the vehicle flows through Musselburgh town centre to acceptable levels. | ELC (lead)/ Developers/ | Actively pursue the implementation of the projects identified. | Management and monitoring of Planning applications through the development management process. Must be in accordance with all relevant proposals especially Policy T32 and Policy DEL1. | | £283,000 | |
| PROP T22 Reopen links to Vehicle Access at Queen Margaret Drive/Whitehall Farm Road | | | | | | |
| The developer of the land at Craighall shall investigate and if necessary provide a modification to the current bus only link at Queen Margaret Drive/Whitehill Farm road to an adoptable standard to provide additional network capacity on route choice for development related trip demands. Intervention will be fully funded by the developer of and provided in | ELC (lead)/ Developers/ Transport Scotland | If the Council requires this intervention to be provided it shall be delivered only once the Queen Margaret Drive A1 interchange is complete (PROP T16). This link will be modified to | Management and monitoring of Planning applications through the development management process. Must be in accordance with all relevant proposals especially | | | |

| Action | Lead & Joint Working | Activity | Status | Time: Short Medium Long | Indicative Cost ⁱ | Progress |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|--------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|----------------------------------|---------------------------------|----------|
| association with development at Craighall (MH1). | | provide a signal controlled contra-flow over the railway bridge. | Policy T32 and Policy DEL1. | | | |
| PROP T24 A198/B1361 Meadowmill Roundabout | | | | | | |
| Land is safeguarded to provide for junction improvements at the A198/B1361 Meadowmill Roundabout to provide additional network capacity for any future housing and employment demands. Redesign of junction and local widening. | ELC (lead) | Further additional road network capacity will be required to accommodate LDP impact. | Management and monitoring of Planning applications through the development management process. | | £776,850 | |
| PROP T25 Dualling of A198 between Bankton North and Meadowmill Roundabouts | | | | | | |
| Land is safeguarded to provide for: The dualling of the A198 between the Bankton North and Meadowmill Roundabouts and the reconfiguration of Bankton A1(T) Interchange. | ELC (lead)/ Landowners | Further additional road network capacity will be required to accommodate LDP impact. | Management and monitoring of Planning applications through the development management process. | | | |

| Action | Lead & Joint Working | Activity | Status | Time: Short Medium Long | Indicative Cost ⁱ | Progress |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|----------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|----------------------------------|----------|
| PROP T27 Tranent Town Centre One-Way System | | | | | | |
| Relevant proposals will be required to contribute to the introduction of a one way system incorporating Loch Road and High Street and Bridge Street linking Loch Road to High Street to increase capacity, improve traffic flow and maintain air quality in Tranent town centre. | ELC (lead)/ Developers | Actively pursue the implementation of the projects identified. | Management and monitoring of Planning applications through the development management process. Must be in accordance with all relevant proposals especially Policy T32 and Policy DEL1. | | £449,000 (Prop T27 & T28) | |
| PROP T28 Junction Improvements at Bridge Street and Church Street Tranent | | | | | | |
| Relevant proposals will be required to contribute to the introduction of a left hand turn filter at the junction of Elphinstone Road and Edinburgh Road to increase capacity, improve traffic flow and maintain air quality in Tranent town centre. | ELC (lead)/ Developers | Actively pursue the implementation of the projects identified. | Management and monitoring of Planning applications through the development management process. Must be in accordance with all relevant proposals especially Policy T32 and Policy DEL1. | | See Prop T27 above | |

***Indicative Costings**

High-level costings have been approximated at this stage until more detailed feasibility assessment is undertaken and the potential for schemes to be taken forward has been fully investigated. The following points should be noted:

- Cost estimates have been prepared to a 2016 cost base where cost rates have been obtained from 'SPON's Civil Engineering and Highway Works Price Book 2016'.
- Where appropriate cost rates are not available in SPON's, they have been sourced from relevant experience that is representative of the present competitive market.
- An estimated indicative allowance has been included for future design and investigation works, which varies between 5% and 15% of total construction costs, depending on the scale and complexity of the proposals.
- The estimates do not include any costs associated with land purchase, remediation of contaminated land, unstable ground conditions, statutory and non-statutory approvals, and contract management.
- The indicative costs exclude Optimism Bias. When proposals are taken forward to feasibility stage of scheme development, which corresponds to 'STAG Stage 1: Programme Entry', an Optimism Bias of 44% would be applied.

Priority Action 3: Education Proposals

2.4 The Council will provide additional phased permanent extension to existing schools in the education zones identified in the LDP to meet the need arising from proposed new housing development in each Cluster. The Council will provide additional pre-school and primary school campus land/facilities at schools in each Cluster. The Council will provide additional phased permanent extension to pre-schools and primary school as required. The requirements for each Cluster are set out below. The timing for delivery of these education requirements will be as required. Additional information on interventions can be found in Appendix A.

| PRIORITY ACTION 3 EDUCATION POLICIES & PROPOSALS | | | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|----------|
| Action | Lead & Joint Working | Dependant site | Milestone | Total project cost | Progress |
| PROP ED1 Musselburgh Cluster | | | | | |
| The Council will provide a new secondary school establishment on land at expanded Wallyford to meet the need arising from proposed housing development in the Cluster. The Council will provide new permanent pre-school and primary school facilities and campus land at Craighall and Wallyford. The Council will provide additional pre-school and primary school campus land at Whitecraig Primary School as part of the allocation to the west of the existing campus. The Council will provide additional phased permanent extension to secondary, primary and pre-school facilities as required to meet the need arising as a direct result of new housing development. | | | | | |
| Musselburgh New Secondary School Establishment | ELC (lead) /Developers | All sites in Musselburgh zone | Education requirements to be delivered as necessary. 6.2 Ha land required. The site is identified on the Proposals Map as PROP MH11 that is linked to MH9. If this site is not available then the school will be provided within PROP MH10. | £37,884,000 | None |
| Craighall Primary School | ELC (lead) / Developers | MH1 - Craighall | Education requirements to be delivered as necessary. 3.1 ha land required (MH1) | £13,240,000 | None |

| PRIORITY ACTION 3 EDUCATION POLICIES & PROPOSALS | | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|----------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|--------------------------------------------------|----------------------------------------------|
| Action | Lead & Joint Working | Dependant site | Milestone | Total project cost | Progress |
| Whitecraig Primary School Expansion | ELC (lead)/ Developers | MH2 - Land at Old Craighall Village/ MH14 - Whitecraig North/ MH15 - Whitecraig South/ | Education requirements to be delivered as necessary. 0.6ha land necessary (MH15) | £5,280,000 | Planning permission approved for part of MH2 |
| Pinkie St Peter's Primary School Expansion | ELC (lead)/ Developers | MH5- Edenhall/ MH6 -Pinkie Mains/ MH8 - Levenhall | Education requirements to be delivered as agreed through the master plan. | £3,330,000 | None |

| Longniddry | | | | | |
| 1 x full size grass sports pitch | Provide all formal sports infrastructure within new development/Urban Park 2 team changing Pavilion no longer required. Instead will utilise existing changing pavilion in recreation park as long as safe access routes are in place. | £ 185,000 | 450 | Longniddry South (PS1) | ELC /Developers |

| Tranent | | | | | |
|---------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|----------|------|------------------------------------------------|-----------------|
| 1 x full size grass sports pitch linked to developments at Windygoul South. | Within 1 ha land south of Windygoul PS, Tranent-costs £185K included for construction of pitch. Title of land to be transferred to Council | £185,000 | 670 | Windygoul South(TT1), Lammermuir Terrace (TT4) | ELC /Developers |
| Enhance provision within Polson Park including upgrade to existing 11aside grass park Elphinstone | | £21,297 | 200 | Lammermuir Terrace (TT4), Bankpark (TT5) | ELC /Developers |
| Contribution towards modest refurbishment of existing pavilion | To take account of increased usage arising from increase in population | £50,000 | 80 | Elphinstone (TT11) | ELC /Developers |
| Blindwells | | | | | |
| 3 full size grass community sports pitches | | £550,000 | 1600 | Blindwells (BW1) | ELC /Developers |
| 6 team changing pavilion | Pavilion to include referee room, storage and social space | £960,000 | 1600 | Blindwells (BW1) | ELC /Developers |
| 1 x cricket wicket | | £8,000 | 1600 | Blindwells (BW1) | ELC /Developers |
| 4 tennis court provision with changing pavilion as part of main facility | | £200,000 | 1600 | Blindwells (BW1) | ELC /Developers |

| Haddington | | | | | |
|------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------|----------|-----|----------------------------------------------------------------------------------------------------------|-----------------|
| Land required for additional 7 a side grass pitch 60m x 40m informal recreational area within Letham development | costs are for construction of pitch-excluding land costs | £92,500 | 275 | Letham Mains Expansion (HN2) | ELC /Developers |
| Dunbar | | | | | |
| 1 x full size grass sports pitch at Hallhill | Area for community sports pitch identified east of the Primary School, south of Hallhill | £185,000 | 495 | Hallhill North (DR2), Brodie Road(DR4), Newtonlees South (DR12), Abbeylands, Abbeylands Garage, Belhaven | ELC /Developers |
| 2 x team changing extension to Hallhill Healthy Living Centre | £300K allowance | £300,000 | 495 | Hospital Field, Coastguard Site, Assembly Rooms | ELC /Developers |

| Gullane | | | | | |
|------------------------------------------------------------------------------------------------------------------------------|--|---------|-----|------------------------------------------------------------------------|-----------------|
| Improve quality of existing 11 a side grass pitch in Recreation Park (Levelling/drainage) to take account of increased usage | | £18,191 | 195 | Saltcoats (NK7), Fenton Gait East (NK8), Fenton Gait South (NK9) | ELC /Developers |
| Land required south of the school site and construction of new additional 7 a side football pitch-overall 70 x 50 | | £92,500 | 195 | Saltcoats (NK7), Fenton Gait East (NK8), Fenton Gait South (NK9) | ELC /Developers |
| Aberlady | | | | | |
| Improve drainage to increase capacity and usage of existing 11 a side grass pitch | | £12,323 | 100 | Aberlady West (NK10) | ELC /Developers |

3 LDP Guidance

3.1 This Section deals with the remaining guidance, policies and proposals not mentioned in earlier parts of the Programme. The Local Development Plan contains a set of policies and proposals. A policy is usually thought of as a rule to guide decisions. It captures the Council's broad intentions. A proposal is usually site specific and states a plan to do something. The tables below set out the remaining guidance, policies and proposals not mentioned above and the actions needed to implement them to successfully deliver the LDP.

| GUIDANCE ACTION 1 ADOPTION OF LOCAL DEVELOPMENT PLAN SUPPLEMENTARY PLANNING GUIDANCE | | | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|------------------------------------------|-----------------------|----------------------------------|--------------------------------------|
| Policy | Lead & Joint Working | Dependant Sites Allocation / Application | Timing & Next Steps | Time: Short Medium Long | Progress |
| Waste Management Supplementary Planning Guidance | | | | | |
| Policies: W1, W2, W3, W4 | ELC (lead)/ Developers | All in East Lothian | Draft Document | | |
| The Waste Management SPG will be adopted as Supplementary Planning Guidance and will form a non-statutory part of the East Lothian Local Development Plan. It will be used in the determination of planning applications in the East Lothian area, but does not set a framework for the scale or type of development. The SPG will guide waste management on a site by site basis in line with the Local Development Plan policies and will promote positive steps to better manage waste issues in new developments and ensure that schemes consider appropriate waste management techniques. | | | | | |
| Farm Steadings Design Guide Supplementary Planning Guidance | | | | | |
| Policies: DC1, DC2, DC3, DP5 | ELC (lead)/ Developers | All in East Lothian | Draft Document | | Public Consultation June – July 2018 |
| The East Lothian Local Development Plan supports the restoration of architecturally important rural buildings. This should be done in a way that maintains or complements the layout and appearance of traditional rural buildings or groups of buildings. The Farm Steading Design Guidance will be adopted as Supplementary Planning Guidance and will form a non-statutory part of the East Lothian Local Development Plan to provide advice for use at pre-application planning discussions. The SPG will guide development of specific farm steading conversions throughout East Lothian in line with the Local | | | | | |

| GUIDANCE ACTION 1 ADOPTION OF LOCAL DEVELOPMENT PLAN SUPPLEMENTARY PLANNING GUIDANCE | | | | | |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|--------------------------------------------------------------------------------|-----------------------|----------------------------------|----------------------------------------------------------------------------------------|
| Policy | Lead & Joint Working | Dependant Sites Allocation / Application | Timing & Next Steps | Time: Short Medium Long | Progress |
| Development Plan policies. It will be used in the determination of planning applications within this area, but does not set a framework for the scale or type of development. | | | | | |
| Blindwells Development Area Design Framework | | | | | |
| Policy BW3 | ELC (lead)/ Developers / Landowner | Blindwells | Draft Document | | |
| Mixed use allocation including circa. 1,600 homes, 10 hectares of employment land and a new local centre. Long term expansion to the east to around 6,000 homes with more employment land and other mixed land uses including a sub-regional town centre. | | | | | |
| Town Centre Strategies SPG | | | | | |
| Policies: TC1, TC2, TC3 | ELC (lead)/ Developers/ Community Councils / Amenity Societies | Tranent, Prestonpans, Haddington, Dunbar, North Berwick | Draft Document | | Strategies will be reviewed and updated as appropriate based on regular health checks. |
| The town centre strategies will provide a vision for each town centre to help address local environmental issues as well as their vibrancy, vitality, and viability. They will also be informed by the findings of a retail capacity study for East Lothian. | | | | | |
| Wind SPG | | | | | |
| Policies: WD1, WD2, WD3, W4, WD6 | ELC (lead)/ Developers/ Landowner/ Other Parties | East Lothian | Draft Document | | |
| The SPG updates policy in line with the national requirements. It is also important that whilst following the requirements of SPP, the SPG takes consideration for the number of wind farm proposals in East Lothian and it must ensure wind farm proposals are not allowed to a degree which will cause unacceptable damage to the landscape, tourism and consequently the East Lothian economy. | | | | | |

| GUIDANCE ACTION 1 ADOPTION OF LOCAL DEVELOPMENT PLAN SUPPLEMENTARY PLANNING GUIDANCE | | | | | |

| Countryside Around Towns (CATs)SPG | | | | | |
| Policy DC8 | ELC (lead)/ Developers / Landowner | East Lothian | Draft Document | | |
| Details of the particular importance of each designated area will be set out in supplementary planning guidance on Countryside Around Towns. Development that would harm CAT objectives defined in the SPG will not be permitted. | | | | | |
| Special Landscape Areas SPG | | | | | |
| Policy DC9 | ELC (lead)/ Developers / Landowner/ SNH/HES | East Lothian | Draft Document | | To be issued for public consultation in Autumn 2018 |
| The Council has assessed the East Lothian landscape in accordance with Guidance on Local Landscape Designations produced by Scottish Natural Heritage and Historic Environment Scotland. The Plan designates Special Landscape Areas and the boundaries of these areas are shown on the Proposals Map. Supplementary planning guidance on Special Landscape Areas will identify the boundaries of these areas, describe each Special Landscape Area and include a Statement of Importance for each. Development should accord with this SPG. | | | | | |
| Green Network Strategy SPG | | | | | |
| Policy DC10 | ELC (lead)/ Adjoining Local Authorities/ SUstrans | East Lothian | Draft Document | | To be issued for public consultation in Autumn 2018 |
| The Green Network Strategy will identify, describe and illustrate where and how to deliver new or improved green infrastructure, including as part of new development. The Council will have regard to its Green Network Strategy when assessing planning applications. | | | | | |

| GUIDANCE ACTION 1 ADOPTION OF LOCAL DEVELOPMENT PLAN SUPPLEMENTARY PLANNING GUIDANCE | | | | | |

| <i>Cultural Heritage and the Built Environment SPG</i> | | | | | |
| Policy CH2 | ELC (lead)/ Developers | East Lothian | Draft Document | | Public Consultation June – July 2018 |
| Conservation Area designation is used to identify areas of special architectural or historic interest. Planning decisions must ensure that the character or appearance of a Conservation Area is preserved or enhanced. There are currently 30 designated Conservation Areas in East Lothian and each has its own distinctive character. Conservation Area Character Statements for 29 Conservation Areas and the more comprehensive Conservation Area Character Appraisal for Inveresk Conservation Area will be set out in this SPG. The guidance will be a material consideration in planning decisions. | | | | | |
| <i>Design Standards for New Housing SPG</i> | | | | | |
| Policy DP8 | ELC (lead)/ Developers | East Lothian | Draft Document | | To be issued for public consultation in Autumn 2018 |
| East Lothian Council requires that high quality design principles are incorporated into the design and layout of all new developments. Designing better places to live, work and play that improve the integration of places, people and their movement needs represents a move towards realising such objectives. The Council's Design Standards for New Housing Areas will provide supplementary planning guidance. | | | | | |

| GUIDANCE ACTION 2 LOCAL PLAN POLICIES & PROPOSALS | | | | |
|------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|----------------------|
| Policy | Policy content | Action | Lead & Joint Working | Timings and Progress |
| GROWING OUR ECONOMY AND COMMUNITIES | | | | |
| GENERAL URBAN DEVELOPMENT POLICIES | | | | |
| Policy TC1: 'Town Centre First' Principle | East Lothian's town centres are a key element of the area's economic and social fabric, acting as service hubs for the areas around them and contributing to local identity. The Council supports the 'town centre first' principle, which promotes an approach to decision-making that considers the health and vibrancy of town centres. | <ul style="list-style-type: none"> • A sequential 'town centre first' approach will be applied where appropriate to development proposals that would attract significant footfall. • Management and monitoring of planning applications through the DM process to monitor compliance with policy. | ELC (lead)/ Developers | Ongoing |
| Policy TC2: Town and Local Centres | Within a town or local centre, uses that will be acceptable in principle include retailing, business and office use, restaurants, leisure and entertainment and the principle of a change of use from one of these uses to another will be supported. | <ul style="list-style-type: none"> • Regular retail health checks • Preparation of Town Centre Strategies which will also inform LDP2. • Planning applications will be managed and monitored through the DM process to ensure compliance with the policy. • Proactive meetings with local retail representatives. • Awareness of changing economic and shopping patterns and | ELC (lead)/ Developers / Local traders | Ongoing |

| PLANNING FOR HOUSING | | | | |
| Policy HOU1: Established Housing Land | The Council continues to support the development of the established housing land supply in East Lothian, including the effective land supply as well as unconstrained and constrained sites, as set out in Housing Land Audit 2015. | <ul style="list-style-type: none"> • Larger housing sites will be included as an appendix to the Action Programme and will be updated individually. • Monitor effectiveness of land supply, site phasing and completions through Housing Land Audit process. • Prepare development briefs as appropriate. • Monitor effectiveness of appropriate SG. | ELC (lead)/ Homes for Scotland / Developers/ Housing Associations | Ongoing |
| Policy HOU2: Maintaining an Adequate 5 Year Effective Housing Land Supply | In line with the Scottish Government's current national planning policy and advice, if there is not 'enough' effective housing land in East Lothian for the next five years, a presumption in favour of development that contributes to sustainable development will be a significant material consideration in the determination of proposals for housing development on land not identified by this Plan as suitable in principle for that purpose. | <ul style="list-style-type: none"> • Planning applications will be managed and monitored through the DM process to ensure compliance with the policy. • Regular monitoring through the Housing Land Audit, the Local Housing Strategy and the Strategic Housing Needs and Demand Assessment. • Regular review of delivery of sites in Appendix A. • Council may decide to support housing proposals on land where | ELC (lead)/ Developers/ Housing Associations | Ongoing |

| Policy | Policy content | Action | Lead & Joint Working | Timings and Progress |
| Policy DP9: Development Briefs | Proposals for the development of sites that are subject to a Development Brief must conform to the relevant framework or brief. | <ul style="list-style-type: none"> Planning applications will be managed and monitored through the DM process to ensure compliance with the policy. Must adhere to Development Briefs SPG and any other relevant policies. | ELC (lead)/ Developers | Ongoing |
| DELIVERY | | | | |
| Policy DEL1: Infrastructure and Facilities Provision | New development will only be permitted where the developer makes appropriate provision for infrastructure and community facilities required as a consequence of their development. | <ul style="list-style-type: none"> Planning applications will be managed and monitored through the DM process to ensure compliance with the policy. Must adhere to Developer Contributions Framework Supplementary Guidance as well as other plans and guidance as relevant. | ELC (lead)/ Developers | Ongoing |

- 3.2 To enable additional development in East Lothian further investment will be required from NHS Lothian and developers to meet the health care needs of an increased population. It should be noted that nearly all GP practices in the county are run by GPs as independent contractors and developer contributions for expansion of existing premises will not be sought. However, NHS Lothian will require new premises for GP services at Blindwells, and developer contributions will be required. Following representations received on the 2016 Proposed Plan, the Reporter agreed with the Council's position that it is justified to seek developer contributions towards primary healthcare facilities at Blindwells. It is still the intention of the HSCP not to ask for developer contributions for any area, bar Blindwells. NHS Lothian and the East Lothian Health and Social Care Partnership have identified a number of proposals to help address demand for services within East Lothian. The table below sets out the key proposals and interventions.

| HEALTH CARE FACILITIES PROPOSALS | | | | | |
|-----------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|-------------------------|--------------------|--------------------------------------------------------------------------|
| Location | Intervention | Cost (including contingency) | Developer Proportion | Dependant Sites | Delivery Lead |
| MUSSELBURGH | | | | | |
| General Practitioner Services / Community Health Services | The two Musselburgh Practices: Riverside and Inveresk are accommodated in purpose-built premises in the Musselburgh Primary Care Centre completed in 2012. Although the building can accommodate projected population growth in and around Musselburgh, the two Practices are at capacity and would need to recruit further GP and practice team staff to accommodate the projected increase in population. This is a revenue issue not appropriate to address via developer contributions. | N/A | N/A | N/A | NHS Lothian/ East Lothian Health and Social Care Partnership |

| Location | Intervention | Cost (including contingency) | Developer Proportion | Dependant Sites | Delivery Lead |
|-----------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|-------------------------|--------------------|--------------------------------------------------------------------------|
| PRESTONPANS | | | | | |
| General Practitioner Services / Community Health Services | To meet existing population growth a £2m renovation and extension of Prestonpans Group Practice was completed in 2017. An extension to The Harbours Medical Practice in Cockenzie is also planned. Housing developments south of Longniddry will require increased primary care provision for circa 1,500 people. The HSCP will in due course arrange for GP cover for the area concerned. Edinburgh Road/Dolphingstone development, which will house 600 people, is covered by Riverside Practice, having previously been outside existing practice boundary area catchments. This is a revenue issue not appropriate to address via developer contributions. | N/A | N/A | N/A | NHS Lothian/ East Lothian Health and Social Care Partnership |
| TRANENT | | | | | |
| General Practitioner Services / Community Health Services | Having been extended (£1.5m extension completed in 2014), Tranent Medical Practice has sufficient capacity to respond to the circa 500 population growth resulting from committed developments. However, the proposed developments will create extra pressure and there is a need for on-going monitoring to measure the success of newly established practice in meeting anticipated demands over time. Any additional demand beyond the capacity of Tranent Medical Practice would need to be met by expansion of existing facility. Land is safeguarded in Tranent for expansion of the medical practice. | N/A | N/A | N/A | NHS Lothian/ East Lothian Health and Social Care Partnership |

| Location | Intervention | Cost (including contingency) | Developer Proportion | Dependant Sites | Delivery Lead |
|-----------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------|----------------------|-----------------|----------------------------------------------------------------------------------------|
| ORMISTON | | | | | |
| General Practitioner Services / Community Health Services | As Ormiston Practice is within a new building it has spare capacity to respond to the population growth expected within its catchment area. | N/A | N/A | | NHS Lothian/ East Lothian Health and Social Care Partnership |
| BLINDWELLS | | | | | |
| General Practitioner Services / Community Health Services | Initial development of a new GP Practice for Blindwells residents might first be accommodated in the short term within another practice until new dedicated premises provision in Blindwells is available. The first stage requirement for primary care premises on the Blindwells site would serve 5,000 patients and would need approximately 600m ² of premises to accommodate a GP practice and attached services – this would be at an initial cost of around £2m which could be provided by a developer in a way other than capital contribution. The approval of planning permission for BW1 makes provision for such capacity to be provided. | Capital and land issue. Currently no site size identified but initial cost of £2,000,000 | £2,000,000 | Blindwells 1600 | NHS Lothian / East Lothian Health and Social Care Partnership/ Developer Contributions |
| HADDINGTON | | | | | |
| General Practitioner Services / Community Health Services | Current housing commitments will create pressure on the three existing practices: Lammermuir Medical Practice, The Orchard Medical Practice and Tyne Medical Practice, which are all within the Newtonport Surgery building, which is under considerable space pressure and has very limited potential for extension. Possible relocations options, such as onto the new East Lothian Community Hospital site in Haddington are identified in the LDP. | N/A | N/A | N/A | NHS Lothian/ East Lothian Health and Social Care Partnership |

| Location | Intervention | Cost (including contingency) | Developer Proportion | Dependant Sites | Delivery Lead |
|-----------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|-------------------------|--------------------|--------------------------------------------------------------------------|
| DUNBAR | | | | | |
| General Practitioner Services / Community Health Services | The Dunbar Medical Centre accommodates three Practices: Cromwell Harbour Medical Practice, Lauderdale Medical Practice and Whitesands Medical Practice. The Practices have some room to grow to meet the committed population growth of 2,500 and the further population growth. | N/A | N/A | N/A | NHS Lothian/ East Lothian Health and Social Care Partnership |
| EAST LINTON | | | | | |
| General Practitioner Services / Community Health Services | The impact on East Linton Surgery from population growth is expected to be minor. | N/A | N/A | N/A | |
| NORTH BERWICK | | | | | |
| General Practitioner Services / Community Health Services | With a projected increase in population of circa 1,800 people, North Berwick Group Practice will be unable to cope and will need to be extended or reprovided. Potential locations for this either separate or related to the reprovion of the services with Edington Hospital are being considered by the HSCP. | N/A | N/A | N/A | NHS Lothian/ East Lothian Health and Social Care Partnership |

| Location | Intervention | Cost (including contingency) | Developer Proportion | Dependant Sites | Delivery Lead |
|--------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|------------------------------------|-------------------------|--------------------|--------------------------------------------------------------------------|
| GULLANE | | | | | |
| General Practitioner Services / Community Health Services | The new building accommodating Gullane Medical Practice has inbuilt capacity sufficient to respond to projected population growth. | N/A | N/A | N/A | NHS Lothian/ East Lothian Health and Social Care Partnership |

4 Monitoring and Assessment for LDP Review

4.1 The Council has a statutory duty under section 16 (b) of the Planning etc. (Scotland) Act 2006 to keep its Local Development Plan up to date and relevant. The Development Plan must be reviewed at least every five years and a Monitoring Report that measures the effectiveness of the Plan, its policies and proposals must be published regularly. The Monitoring Report will set out performance against the indicators contained in a Monitoring Framework and inform future reviews of both the Action Programme and the LDP itself.
