Permit Charge	Refund Rate
£10.00	Not available

SCHEDULE 18

RESIDENTS' PERMIT PRICE INCREASE CALCULATIONS

For the purposes of this order:

- a) Any reference in this Schedule to RPI is a reference to the Retail Price Index, as calculated and published the Office of National Statistics, and
- b) The following methodology will be used to calculate prices for residents' permits

Calculation:

- (1) Permit prices will be calculated on the following basis, with the following methodology applying for all permit prices changes applied until the end of April 2026.
- (2) Price increases will be applied annually on the first Monday in April of each year.
- (3) The methodology will be reviewed after the application of the new permit prices in 2026 and, subject to the successful completion of the required legal process, this Schedule will be updated with the revised methodology for applying future price increases.
- (4) Permit price increases will be directly linked to RPI, with prices calculated at RPI+ 3.0%
- (5) For the purposes of the price payable, the calculated figures will be rounded down to the nearest £0.10. For the purposes of future calculations, the calculated price, without rounding, will be used to calculate future prices;
- (6) In January of each year the average rate of RPI will be calculated using monthly figures for the preceding 12 month period divided by 12. This average rate will be used as a basis for calculating the changes to permit prices.
