

East Lothian Council (Car Club and Electric Vehicle Parking Places) Order 2015

TO – 253 / 15

Statement of Reasons

Following a successful bid for funding from Transport Scotland and the Energy Savings Trust, Car Club and Electric Vehicle parking places have been made to facilitate car club and electric vehicles. An Order is therefore required to ensure that only authorised vehicles can use the facilities and that a timed restriction is placed on the electric vehicle parking spaces as a courtesy to other electric vehicles users.
